If you are installing multiple remote-controlled fans on the same circuit breaker, you may need to perform a few extra steps to prevent interference or faulty operation of your remote controls. Go to www.HunterFan.com FAQs and click "How do I properly install multiple remote-controlled fans?" for more information.

Installation

Before installing the Universal Remote Control Receiver, use the push button to set the fan speed to Off and turn light on (if in that position) OFF before proceeding with installation.

Remove the canopy if necessary. Slide the receiver in, adjusting the fan canopy's channel. With wiring exposed, it may be helpful to cover existing wire connections or take a digital photo for reference. Remove the wire channel and fasten it to the fan, leaving the grounding wire unattached.
