**Elementary Food Science** Richard Owusu-Apenten, Ernest R. Vieira, 2022-05-28 Following the success of the popular introductory text *Elementary Food Science* 5th edition covers a broad range of food science topics organized in four parts: Part 1 Interrelated food science topics; Part 2 Food safety GMP is described independently and as a prerequisite for HACCP, VACCP and TACCP food safety management systems; Part 3 contains two new chapters dealing with basic aspects of food processing and the quality of dried foods; Part 4 covers handling and processing major food commodity groups: meat, dairy products, poultry and eggs, fish and shellfish, cereal grains, bakery products, fruits and vegetables, sugar confectionery. A new final chapter covers the foodservice industry. The text highlights food science links with industry uniquely using the North American Industry Classification System (NAICS). Overall, the book is thoroughly modernized with over 1500 references cited in recognition of thousands of named food scientists and other professionals. The target readership remains unchanged for the current edition: i.e. Students of food science from senior high school colleges or universities. Sections of the book will also appeal to advanced readers from other disciplines with perhaps little or no prior food science experience. Additionally, readers covering the intersection of food science with culinary arts, food services and nutrition or public health will find the book useful.
