

**CHA16 SERIES UNITS**  
**2 THROUGH 5 TON UNITS**

CHA16 series units in the 2-5 ton sizes were introduced in the spring of 1990. The single package cooling units may be used in both residential and commercial applications. Electric heat is available in several Kw sizes. Units are designed for rooftop or side of building installation with either bottom or horizontal discharge.

For commercial applications, the CHA16 is designed to accept any of several different thermostat control systems with minimum field wiring. Control options such as economizer, warm up kit, Honeywell W973 control or Honeywell W7400 control connect to the unit with jack-plugs. When plugged in the controls become an integral part of the unit wiring. Commercial units are also equipped with a low voltage terminal strip to facilitate thermostat field wiring.

All specifications in this manual are subject to change.
