Digital Stimulation Mimi Marinucci,2024-09-05 Digital Stimulation explores the subject of intimacy including romantic and sexual intimacy between human and nonhuman entities particularly technological entities As relationships between humans and machines become increasingly prevalent it is important to address the potential for such relationships to reflect to reinforce or to reinvent existing hierarchies The distinction between man and machine like the distinction between man and beast between man and brute between man and nature between man and woman and so on is an expression of the anthropocentrism and androcentrism permeating western ideas of self and other Concerns about the representation or misrepresentation and treatment or mistreatment of machines are of consequence for other human and nonhuman others as well and this book details many of the ways in which depictions of machines especially robots mirror ideas and attitudes about various human and nonhuman others This book also addresses the ongoing development of machines designed explicitly for intimate engagement with humans such as sex robots As they become more and more lifelike it becomes progressively more urgent to cultivate compassion toward such machines **Motion Picture Herald** ,1923

Beyond the Fifth Century Ingo Gildenhard, Martin Revermann, 2010-07-30. *Beyond the Fifth Century* brings together 13 scholars from various disciplines: Classics, Ancient History, Mediaeval Studies, to explore interactions with Greek tragedy from the 4th century BCE up to the Middle Ages. The volume breaks new ground in several ways. Its chronological scope encompasses periods that are not usually part of research on tragedy reception, especially the Hellenistic period, late antiquity, and the Middle Ages. The volume also considers not just performance reception but various other modes of reception between different literary genres and media: inscriptions, vase paintings, recording technology. There is a pervasive interest in interactions between tragedy and society at large, such as festival culture and entertainment, both public and private, education, religious practice, even life style. Finally, the volume features studies of a comparative nature which focus less on genealogical connections, although such may be present, but rather on the study of equivalences.
