Lupovici, 2016-09-01 Why do states persist in using force to enhance their deterrent posture even though it is not clear that it is effective This book develops an innovative framework to answer this question viewing deterrence as an idea This allows the author to explain how countries institutionalize deterrence strategy and how this internalization affects policy He argues that the US and Israel have both internalized deterrence ideas and become attached to these practices For them deterrence is not just a means to advance physical security but it constitutes their very selves as deterring actors As a result being unable to deter becomes a threat to their identity evoking strong emotional responses In recognizing these dynamics the

book provides a fresh perspective on the US war in Iraq 2003 and the Israeli war in Lebanon 2006 both of which can be seen as attempts to repair each country's shaken sense of self
