Later That Night:

Digital Filmmaking Thomas Ohanian, Natalie Phillips, 2013-04-03 Digital Filmmaking has been called the bible for professional filmmakers in the digital age. It details all of the procedural, creative, and technical aspects of pre-production, production, and post-production within a digital filmmaking environment. It examines the new digital methods and techniques that are redefining the filmmaking process and how the evolution into digital filmmaking can be used to achieve greater creative flexibility as well as cost and time savings. The second edition includes updates and new information, including four new chapters that examine key topics like digital television and high definition television, making films using digital video 24 P and universal mastering, and digital film projection. Digital Filmmaking provides a clear overview of the traditional filmmaking process, then goes on to illuminate the ways in which new methods can accomplish old tasks. It explains vital concepts including digitization, compression, digital compositing, nonlinear editing, and on-set digital production, and relates traditional film production and editing processes to those of digital techniques. Various filmmakers discuss their use of digital techniques to enhance the creative process in the Industry Viewpoints sections in each chapter.

For over a hundred years *The Columbia Granger's Index to Poetry in Anthologies* has been the preeminent index for answers to questions about the world of poetry, identifying the author of a poem or the anthologies in which it can be found when only a title, first line, or last line is known. This latest edition, a must-have for libraries, brings its index up to date as of May 31, 2006. This latest version features 85,000 classic and contemporary poems by 12,000 poets. Also included are works in translation and, for the first time, poetry in Spanish, Vietnamese, and French. The subject organization of the poems is especially useful. Hundreds of new subjects have been added, indexing poems on highly relevant topics such as Osama bin Laden, the war in Iraq, Dick Cheney, the Internet, and Rosa Parks, as well as timeless subjects like the Bill of Rights, unspoken love, faith, and inspiration. Our impressive team of consultants includes J.D. McClatchy, Harvey Shapiro, and former poet laureate Mark Strand. From *The Norton Anthology of Poetry* 2005 edition to *Poetry after 9/11* and Garrison Keillor's *Good Poems*, this new edition puts readers in touch with the best of the latest anthologies and the lasting favorites.
