Mathematical Reasoning of Children and Adults Alina Galvão Spinillo, Síntria Labres Lautert, Rute Elizabete de Souza Rosa Borba, 2021-05-24 This book adopts an interdisciplinary approach to investigate the development of mathematical reasoning in both children and adults and to show how understanding the learner's cognitive processes can help teachers develop better strategies to teach mathematics This contributed volume departs from the interdisciplinary field of psychology of mathematics education and brings together contributions by researchers from different fields and disciplines such as cognitive psychology neuroscience and mathematics education The chapters are presented in the light of the three instances that permeate the entire book the learner the teacher and the teaching and learning process Some of the chapters analyse the didactic challenges that teachers face in the classroom such as how to interpret students reasoning the use of digital technologies and their knowledge about mathematics Other chapters examine students opinions about mathematics and others analyse the ways in which students solve situations that involve basic and complex mathematical concepts The approaches adopted in the description and interpretation of the data obtained in the studies documented in this book point out the limits the development and the possibilities of students thinking and present didactic and cognitive perspectives to the learning scenarios in different school settings *Mathematical Reasoning of Children and Adults Teaching and Learning from an Interdisciplinary Perspective* will be a valuable resource for both mathematics teachers and researchers studying the development of mathematical reasoning in different fields such as mathematics education educational psychology cognitive

psychology and developmental psychology **Mathematics Education in the Early Years** Tamsin Meaney, Ola Helenius, Maria L. Johansson, Troels Lange, Anna Wernberg, 2016-01-22 This book presents chapters based on papers presented at the second POEM conference on early mathematics learning These chapters broaden the discussion about mathematics education in early childhood by exploring the debate about construction versus instruction Specific sections investigate the teaching and learning of mathematical processes and mathematical content early childhood teacher development transitions for young children between home and preschool between home and school and between preschool and school The chapters use a range of innovative theoretical and methodological approaches which will form an interesting basis for future research in this area The Use and Interpretation of Educational Tests Harry Andrew Greene, Albert Nels Jorgensen, 1929 **The Cambridge Handbook of Applied School Psychology** Frank C. Worrell, Tammy L. Hughes, Dante D. Dixson, 2020-09-17 Practice books are often simple how to lists or straightforward recipes and the practitioner still does not know why the activity is related to the outcome they seek In essence they lose how the specifics of the practice are related to the theory of change or the theory of how the problem developed in the first place This leads to practitioners potentially removing crucial elements of best practice procedures when making modifications to tackle new or different problems in an unfamiliar context By understanding the theoretical underpinnings practitioners can better plan for adjustments because they know how the outcomes they seek are informed by the theory Engagingly written and perfect for day to day use this book translates state of the art research and interdisciplinary theory into practical recommendations for those working with children and adolescents **Interpreting Educational Research** Daniel R. Hittleman, Alan J. Simon, 2002 This book provides the basic knowledge and skills to read interpret evaluate and write about quantitative and qualitative educational research It allows teachers to make program curriculum and instructional decisions based on research results The authors goal is to guide readers to think as research consumers through directed learning activities based on current integrated language arts principles and practices Chapter topics include the research process research designs reading and evaluating research reports reading and evaluating sections abstract background and purpose reading and interpreting reviews of research and locating information about research reports For teachers of any and all grade levels pre kindergarten through post graduate *Resources in Education* ,1991 *Journal for Research in Mathematics Education* ,2007 **The Massachusetts Register** ,2005 *Grade Teacher* ,1929 Number Sense and Operations in the Primary Grades Carne Barnett-Clarke, 2003 Provides practice based materials for teaching mathematic concepts in grades K 2 Addresses many hard to teach and learn concepts including place value number sentences basic facts addition subtraction and regrouping Circular United States.
