Slavery and Essentialism in Highland Madagascar Denis Regnier, 2020-12-10 This book explores the prejudice against slave descendants in highland Madagascar and its persistence more than a century after the official abolition of slavery Unclean people is a widespread expression in the southern highlands of Madagascar and refers to people of alleged slave descent who are discriminated against on a daily basis and in a variety of ways Denis Regnier shows that prejudice is rooted in a strong case of psychological essentialism free descendants think that slaves have a dirty essence that is impossible to cleanse Regnier's field experiments question the widely accepted idea that the social stigma against slavery is a legacy of pre colonial society He argues to the contrary that the essentialist construal of slaves is the outcome of the historical process triggered by the colonial abolition of slavery whereas in pre abolition times slaves could be cleansed through ritual means the abolition of slavery meant that slaves were transformed only superficially into free persons while their inner essence remained unchanged and became progressively constructed as forever unchangeable Based on detailed fieldwork this volume will be of interest to scholars of anthropology African studies development studies cultural psychology and those looking at the legacy of slavery

The Property of the Nation Matthew R.

Costello, 2021-12-03 George Washington was an affluent slave owner who believed that republicanism and social hierarchy were vital to the young country's survival And yet he remains largely free of the elitist label affixed to his contemporaries as Washington evolved in public memory during the nineteenth century into a man of the common people the father of democracy This memory we learn in The Property of the Nation was a deliberately constructed image shaped and reshaped over time generally in service of one cause or another Matthew R Costello traces this process through the story of Washington's tomb whose history and popularity reflect the building of a memory of America's first president of by and for the American people Washington's resting place at his beloved Mount Vernon estate was at times as contested as his iconic image and in Costello's telling the many attempts to move the first president's bodily remains offer greater insight to the

issue of memory and hero worship in early America While describing the efforts of politicians business owners artists and storytellers to define influence and profit from the memory of Washington at Mount Vernon this book s main focus is the memory making process that took place among American citizens As public access to the tomb increased over time more and more ordinary Americans were drawn to Mount Vernon and their participation in this nationalistic ritual helped further democratize Washington in the popular imagination Shifting our attention from official days of commemoration and publicly orchestrated events to spontaneous visits by citizens Costello s book clearly demonstrates in compelling detail how the memory of George Washington slowly but surely became The Property of the Nation Historical Outlook ,1924 A Manual to Accompany The Study Readers, Fourth, Fifth, and Sixth Years Alberta Walker, Mary Rosetta Parkman, 1925 **Federal Decisions** ,1885 *The School Journal* ,1905 *The Criminal Law Journal of India* ,1914
