**Wood Houses** Ruth Slavid, 2006-10 A superbly illustrated survey profiling noteworthy new homes from around the world all constructed from the architect s latest cutting edge material wood Contemporary architects have long overlooked the great versatility of wood as a building material Now however they have begun to adopt wood as the natural solution to a variety of design problems and as a result this environmentally sustainable material is becoming increasingly significant in today s domestic architecture Wood Houses by noted architecture journalist Ruth Slavid displays the entire breadth of this important architectural movement by covering forty six recently built homes The featured houses range from Fernau and Hartman Architects Mann Residence in Sonoma County a timber frame house with a strikingly decentralized plan to 24H Architecture s Arjang House in V rmland Sweden a reindeer fur lined cedar shingled lakeside retreat Each house s profile is illustrated with not only the architect s own plans and elevations but also numerous full color interior and exterior photographs that highlight the intrinsic beauty of wood Slavid explores the background of the present wood house renaissance in an introduction that covers topics as wide ranging as timber frame construction the use of wood in an urban

setting and fire prevention She goes on to illuminate significant trends in the field of wooden home design such as timber s popularity as a construction material for vacation homes and the evolution of deliberately austere aesthetics from wood s innate qualities Other topics include the liberation of wood from its familiar associations to serve as the basis of modern design and the current status of wood houses as part of a larger urban or suburban development A helpful appendix features project credits and a glossary This beautiful volume will serve as both a reference and an inspiration for anyone who designs builds or simply lives in wood houses

The Timberman ,1925 The Shipping Container Homes Book Kenelm Hunt,2021-10-08 A Comprehensive Guide To Build An Environmentally Friendly Home With Shipping Containers Container homes are just what they sound like homes built from container steel that transports goods on ships trains and trucks From this container steel homes of all shapes and sizes can be built Shipping containers are used to construct homes cabins studios and offices because with about 14 million out of service containers worldwide several of such containers are available for these purposes not to mention the appeal

that comes with experimenting with these giant blocks of containers. Aside from trendiness, building container homes have gained a wider interest amongst many because it saves money to construct. As such, several potential homeowners are seeking for homes with lesser construction and maintenance costs. Besides the perception, it exists that container homes contribute to recycling initiatives. Containers come in different sizes such as 10ft, 20ft, and 40ft, with the smallest shipping container providing a floor space of about 100 square feet for a shipping container home. Now imagine when hundreds of micro apartments made of containers are constructed into a huge apartment building, the sight of such can be an astonishing grab for the eye. But you really don't need to rack up several containers before you can have a decent container home to live in. All you need is the right amount of knowledge and guidance to help you get the best out of your shipping container and have a well put together container you can call home. Hence the reason this book was written. In this book, you will:

1. Be familiar with the pros and cons of owning a shipping container home to help you make an informed decision.
2. Have access to different container layout plans to help you get the most out of your container home.
3. Know how to choose the right shipping container for your home using several deciding criteria.
4. Be educated on how to prepare the site and foundation for your container properly.
5. Know what container insulation entails and how it affects your container home.
6. Know the different roofing styles applicable to container homes with directions on how to floor your container home.
7. Be familiar with several design ideas you can implement to give your home an astonishing feel while conserving space and so much more.

Still having doubt, this is your go-to guide to building a shipping container home. Get a copy of this book **RIGHT NOW** to find out **The HOME House Project**. Steven Badanes, 2004. This book published in conjunction with a travelling exhibition documents the 25 prize-winning designs as well as 50 other selected submissions with 396 colour illustrations.
