Caribbean Children's Literature, Volume 1 Betsy Nies, Melissa García Vega, 2023-05-18 Contributions by Mar a V Acevedo Aquino Consuella Bennett Florencia V Cornet Stacy Ann Creech Zeila Frade Melissa Garc a Vega Ann Gonz lez Louise Hardwick Barbara Lalla Megan Jeanette Myers Betsy Nies Karen Sanderson Cole Karen Sands O Connor Geraldine Elizabeth Skeete and Aisha T Spencer The world of Caribbean children s literature finds its roots in folktales and storytelling As countries distanced themselves from former colonial powers post 1950s the field has taken a new turn that emerges not just from writers within the region but also from those of its diaspora Rich in language diversity and history contemporary Caribbean children s literature offers a window into the ongoing representations of not only local realities but also the fantasies that structure the genre itself Young adult literature entered the region in the 1970s offering much needed representations of teenage voices and concerns With the growth of local competitions and publishing awards the genre has gained momentum providing a new field of scholarly analyses Similarly the field of picture books has also deepened Caribbean Children s Literature Volume 1 History Pedagogy and Publishing includes general coverage of children s literary history in the regions where the four major colonial powers have left their imprint addresses intersections between pedagogy and children s literature in the Anglophone Caribbean explores the challenges of producing and publishing picture books and engages with local authors familiar with the terrain Local writers come together to discuss writerly concerns and publishing challenges In new interviews conducted for this volume international authors Edwidge Danticat Junot Diaz and Olive Senior discuss their transition from writing for adults to creating picture books for children

Standards of English in Higher Education Neil Murray, 2016 A frank and critical appraisal of English language proficiency as a key issue in higher education today *Daily Graphic* Ransford Tetteh, 2014-04-09 *The Education Invasion* Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda

imposed on the nation's schools Who benefits And how can citizens regain local self governance in education so their children's minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies *Approaches to Inclusive English Classrooms* Kate Mastruserio Reynolds,2015-03-02 This book provides educators with an accessible guide to best practices concerning content based instruction CBI models and their use in English learner inclusive classrooms The author effectively bridges the gap between theory and practice with a critical analysis of practical examples and diverse strategies for the inclusion of English learners into K 12 general education courses The book also raises controversial questions regarding who is qualified to teach English learners and who is responsible for doing so looking at the difficulties faced by both general educators and ESL teachers in Inclusive Classrooms By providing a lens through which both ESL teachers and general educators are able to analyze compare and contrast a range of widely employed CBI methods this book allows teachers to make informed decisions in their EL program development and work with English learners in K 12 schools **Relearning to Teach** David Fawcett,2019-09-16 Relearning to Teach challenges the seemingly complex teaching profession and the various initiatives strategies and ideas that are regularly suggested It explores how teaching methods are used without a clear understanding of why which leads to ineffective teaching that is believed to work but ultimately doesn't Cutting through the clutter of conventional teacher guidance David Fawcett tackles myths head on sharing the latest research and explaining how this will look translated to a classroom environment The book breaks down the complexities of teaching into manageable chunks and offers practical advice on how to take charge of your own CPD to become a more reflective and successful practitioner Focusing on what's most relevant and helpful to build effective teaching practice and self improvement it raises key questions such as Is lesson planning just a box ticking exercise Why do students remember in lessons but forget in tests Is asking more questions beneficial Is feedback actually worth it Relearning to Teach is a must read for all teachers looking to pinpoint the why of teaching methods and to gain an understanding of the reasons why various pedagogies are used within the classroom *Yearbook of International Organizations 2013-2014 (Volumes 1A-1B)* Union of International Associations,2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *Higher Education Institutions in the EU: Between Competition and Public Service* Andrea Gideon,2017-02-05 This book investigates the impact of EU law and policy on the Member States higher education institution HEI sectors with a particular emphasis on the exposure of research in universities to EU competition law It illustrates how the gradual application of EU economic law to HEIs which were predominantly identified as being within the public sector creates tensions between the economic and the social spheres in the EU Given the reluctance of the Member States to openly develop an EU level HEI policy these tensions appear as unintended consequences of the traditional application of the EU Treaty provisions in areas such as Union Citizenship the free movement provisions and competition policy to the HEI sector

These developments may endanger the traditional non economic mission of European HEIs In this respect the effects of Union Citizenship and free movement law on HEIs have received some attention but the impact of EU competition law constitutes a largely unexplored area of research and this book redresses that imbalance The aim of the research is to show that intended and unintended consequences of the EU economic constitution s are enhanced by a parallel tendency of Member States to commercialise formerly public sectors such as the HEI sector The book investigates the potential tensions through doctrinal analysis and a qualitative study focussing on the exposure of HEI research to EU competition law as an under researched example of exposure to economic constraints It concludes that such exposure may compromise the wider aims that research intensive universities pursue in the public interest Andrea Gideon is a Postdoctoral Research Fellow at the Centre for Law Business National University of Singapore for which she has suspended her position as Lecturer in Law at the University of Liverpool In her current project she is investigating the application of competition law to public services in ASEAN Her previous research concerned tensions between the economic and the social in the EU with a focus on EU competition law in which research area she earned her PhD at the University of Leeds in 2014 Chinese Perspectives on the International Rule of Law Matthieu Burnay,2018-07-27 This insightful book investigates the historical political and legal foundations of the Chinese perspectives on the rule of law and the international rule of law Building upon an understanding of the rule of law as an essentially contested concept this book analyses the interactions between the development of the rule of law within China and the Chinese contribution to the international rule of law more particularly in the areas of global trade and security governance The London Corn Circular ,1930 Japanese Current Research ,1987-07 **Proceedings of the IRE.** Institute of Radio Engineers,1960 Pacific Rural Press ,1882 *Brookmire Bulletins* Brookmire Economic Service, Inc., New York,1924 **Scientific American** ,1874 Monthly magazine devoted to topics of general scientific interest **St. Louis Daily Market Reporter and Merchants Exchange Price Current** ,1914 **The Parliamentary Debates (Hansard).** Great Britain.
