Beyond Age Effects in Instructional L2 Learning Simone E. Pfenninger, David Singleton, 2017-04-21 This book constitutes a holistic study of how and why late starters surpass early starters in comparable instructional settings Combining advanced quantitative methods with individual level qualitative data it examines the role of age of onset in the context of the Swiss multilingual educational system and focuses on performance at the beginning and end of secondary school thereby offering a long term view of the teenage experience of foreign language learning The study scrutinised factors that seem to prevent young starters from profiting from their extended learning period and investigated the mechanisms that enable late beginners to catch up with early beginners relatively quickly Taking account of contextual factors individual socio affective factors and instructional factors within a single longitudinal study the book makes a convincing case that age of onset is not only of minimal relevance for many aspects of instructed language acquisition but that in this context for a number of reasons a later onset can be beneficial

The English Professor Margaret R. O'Leary/Dennis S. O'Leary, 2016-02-04 Across the span of more than forty years Raphael Dorman O Leary a professor of English rhetoric and English literature taught his students at the University of Kansas to think straight to put sinew into their sentences and to embrace the magnificent literary treasures of their mother tongue The English Professor by authors Margaret R O Leary and Dennis S O Leary offers a narrative of the life work and times of a revered Midwestern university English teacher This memoir narrates how the professor born in 1866 was raised

on a Kansas farm in the post bellum era Like his father before him he was committed to a life of learning and teaching His colleagues knew him for his unpretentious exterior honesty and integrity and his flashing anger at cheapness vulgarity pretense and above all charlatanism When Professor O Leary died after a short illness in 1936 his personal effects passed through two generations to his grandson Dennis S O Leary who with his wife Margaret discovered his papers while restoring a family house The trove of material served as the core resource for the compilation of *The English Professor* It provides insights into the histories of Kansas and the University of Kansas and of Harvard University as well as perspectives on higher education including the teaching of English rhetoric language literature journalism and oratory in the United States

Asia's Latent Nuclear Powers Mark Fitzpatrick, 2017-10-03 If the nuclear weapons club were to further expand would Americas democratic allies in Northeast Asia be among the next entrants Japan South Korea and Taiwan all have robust civilian nuclear energy programmes that make them virtual nuclear powers according to many analysts All three once pursued nuclear weapons and all face growing security threats from nuclear armed adversaries But will they or rather under what circumstances might they This book analyses these past nuclear pursuits and current proliferation drivers In explaining the nuclear technology that the three now possess it considers how long it would take each to build a nuclear weapon if such a fateful decision were made Although nuclear dominoes Northeast Asia cannot be ruled out the author does not predict such a scenario Unlike when each previously went down a nuclear path democracy and a free press now prevail as barriers to building nukes in the basement Reliance on US defence commitments is a better security alternative as long as such guarantees remain credible an issue that is also assessed But extended deterrence is not a tight barrier to proliferation of sensitive nuclear technologies Nuclear hedging by its Northeast Asian partners will challenge Washingtons nuclear diplomacy
