2021 Black Book is the first edition of our series on Mastercam The book is authored to help professionals as well as learners
in creating some of the most complex NC toolpaths The book follows a step by step methodology In this book we have tried to
give real world examples with real challenges in designing We have tried to reduce the gap between university use of
Mastercam and industrial use of Mastercam The book covers almost all the information required by a learner to master
Mastercam The book starts with basics of machining and ends at advanced topics like 3D High Speed Machining Toolpaths
Some of the salient features of this book are In Depth explanation of concepts Every new topic of this book starts with the
explanation of the basic concepts In this way the user becomes capable of relating the things with real world Topics Covered
Every chapter starts with a list of topics being covered in that chapter In this way the user can easy find the topic of his her
interest easily Instruction through illustration The instructions to perform any action are provided by maximum number of
illustrations so that the user can perform the actions discussed in the book easily and effectively There are about 750 small
and large illustrations that make the learning process effective Tutorial point of view At the end of concept s explanation
tutorials make the understanding of users firm and long lasting Almost each chapter of the book related to machining has
tutorials that are real world projects Moreover most of the tools in this book are discussed in the form of tutorials For Faculty
If you are a faculty member then you can ask for video tutorials on any of the topic exercise tutorial or concept
