## Sleep

To put the Tablet PC in Sleep mode, press and release the power button . To wake up the tablet from Sleep mode, press the power button again.

**Note** The power button blinks when the tablet is in Sleep mode.

## Locking and unlocking

To lock and unlock your R12, press the Security button  on the left side of the Tablet PC.

## Using the fingerprint reader

The R12 is equipped with a fingerprint reader so that you can log on to your Tablet PC by scanning your fingerprint instead of entering a password. This provides an added level of security and is a fast and convenient way to log on to your tablet.

## Using the pen

An important difference between traditional PCs and Tablet PCs is that you frequently use a digitizer pen instead of a mouse and keyboard. The R12 pen has a pressure-sensitive tip and a function button. Pressing the function button is equivalent to right-clicking a mouse.

## Using touch

Your R12 is equipped with touch, which means you can use your fingers to select items and open files, zoom in and out, scroll through browser windows and documents, and more.

Touch works like a mouse. Tap to select an item and double-tap to open it.

**Tip** To open a right-click menu using touch, press your finger on the display until a square appears, then lift your finger and the shortcut menu appears.

Calibrate the pen and your finger so that they can be detected more accurately on the touchscreen display. You should do so when you first start using your Tablet PC and whenever the pointer doesn't align with your pen or finger. To start the application, tap the Motion Tablet Center tile, then tap **Tablet**, and then tap **Pen and Touch**.
