nuclear a change necessitated by an insecure and urbanizing economy Nevertheless Bahian families maintained many traditional values and traditional kin networks The author examines the daily life and dynamics of households including what is known about lower class families where consensual arrangements were the norm He looks at the history of the medical profession the legal profession and the Catholic church and he describes the attempts of each group to mobilize the family for its own political social and cultural ends The author argues that family ideology and families themselves resisted and transformed the efforts of these institutions to impose their will The book also deals with the changes and continuities in Bahian attitudes and beliefs about courtship honor and the place of women as well as the ways in which Bahians projected a familial ethic onto social relations outside the home Within families conduct was governed by a belief in the traditional rituals of life in the family circle weekly family dinners at the table of an older relative residence in family compounds around an old mansion or in several apartments of a single building nepotism in public bureaucracies and the management of both small and large businesses by families and their relatives Although these patterns of family life were transformed over time this study demonstrates that such traditions did survive even thrive well into the twentieth century
