

A photograph of a city street at dusk. The street is lined with multi-story buildings, some with balconies. Streetlights are on, and the sky is a deep blue. The overall scene is urban and atmospheric.

Mask Of Fortune English Edition:

Operas in English: A Dictionary Margaret Ross Griffel, 2012-12-21 In this revised and expanded edition of *Operas in English: A Dictionary* Margaret Ross Griffel updates her work on operas written specifically to an English text including not only works originally in English but also those set to new English librettos. Since the book's initial publication in 1999, Griffel has added nearly 900 new items, bringing the total number of entries in this new edition to 4,400, covering the world of opera in English from 1634 through 2011. The front matter includes a brief history of English opera to set the stage for the dictionary entries that follow. Listed alphabetically, each opera entry includes alternative titles, a full descriptive title, the number of acts, composer's name, librettist's name with original language of the libretto, the source of the text, date, place, and cast of the first performance, date of composition if it occurred substantially earlier than the premiere, similar information for the first U.S. including colonial and British, England, Scotland, Wales performances, brief plot summary, main characters' names and vocal ranges where known, names of noteworthy numbers, comments on special musical problems and techniques, other settings of the text including non-English ones, other operas if any involving the same story or characters. Cross references are indicated by asterisks. Entries include such information as first and critical editions of the score and libretto, a bibliography ranging from scholarly studies to more informal journal articles and reviews, a discography, and information on video recordings. *Operas in English* features four appendixes: a selective bibliography and two indexes. The first appendix lists composers, their places and years of birth and death, and their operas included in the text as entries; the second does the same for librettists; the third records authors whose works inspired or were adapted for the librettos; and the fourth comprises a chronological listing of the A-Z entries, including the date of first performance, the city of the premiere or composition date if unperformed or performed much later, the short title of the opera, and the composer. There is a main character index and an index of singers, conductors, producers, composers of other settings, and other key figures.

[Masks and Masking in Medieval and Early Tudor England](#) Meg Twycross, Sarah Carpenter, 2017-03-02 Drawing on broad research, this study explores the different social and theatrical masking activities in England during the Middle Ages and the early 16th century. The authors present a coherent explanation of the many functions of masking, emphasizing the important links among festive practice, specialized ceremonial, and drama. They elucidate the intellectual, moral, and social contexts for masking and examine the purposes and rewards for participants in the activity. The authors' insight into the masking games and performances of England's medieval and early Tudor periods illuminates many aspects of the thinking and culture of the times: issues of identity and community, performance and role play, conceptions of the psyche and of the individual's position in social and spiritual structures. *Masks and Masking in Medieval and Early Tudor England* presents a broad overview of masking practices, demonstrating how active and prominent an element of medieval and pre-modern culture masking was. It has obvious interest for drama and literature critics of the medieval and early modern periods but is also useful for historians of culture, theatre,

and anthropology Through its analysis of masked play this study engages both with the history of theatre and performance and with broader cultural and historical questions of social organization identity and the self the performance of power and shifting spiritual understanding
