## Visit to the Metropolitan Museum of Art at New York City

Last week I visited the Metropolitan Museum of Art at New York City. This museum, also known as The Met is a huge building with nineteen departments and around two billion art pieces stored and displayed in its art galleries. The main art gallery of the museum, i.e. The Met is one of the largest galleries of the world.

There are several categories of art works displayed in different portions of the museum. The main categories and collections of the art works displayed at the museum are American art, Ancient Near Eastern art, American decorative arts, Asian art, Egyptian art, Greek and Roman art, African art, South American art, art related to arms and armory, European art, Islamic art and religious collections. The art works include various forms, though paintings and sculpture are the main forms. Collections comprising weapons and armory, musical instruments, costumes and building interiors are some other important art forms at display in the museum.

Visit to museums has always been a pleasant experience for me. Museums open doors to a world of fantasy. By entering the doors of a good museum, it is possible to close off the doors of mind to the harsh realities of the real world for a while. Visit to a museum is akin to visiting a fairy land. It is a wonderful and refreshing experience to see the relics of past from such close proximity. I have particularly been interested in paintings. A painting is nothing less than an incarnation of the imagination of the painter. The manner in which an artist brings the lifeless canvas to life by using strokes of his or her brush is amazing. It is a life created by the artist using nothing more than few mundane objects like a brush, colors, oil or water and a canvas. Religious art works have always intrigued me a lot due to my interest in comparative study of religions and the collection at the Met was a treat for my eyes.

I had a chance to observe many beautiful and mesmerizing artworks at the museum but at the moment I will discuss the following three artworks, since the memories of these artworks are still fresh in my mind due to the strong impact made by them:

- Madonna and Child Enthroned with Saints
- Stoclet Madonna
- Temple of Dendur

Madonna and Child Enthroned with Saints were done by Italian painter named Raphael. Raphael belonged to the High Renaissance era of art. This form of art was patronized by Pope Julius II and Italy was the focal point of this era and Michelangelo, Leonardo de Vinci and Raphael were the prominent artists. This is a conservative piece of art and it was painted by Raphael when he was about twenty one years old. This painting as the name depicts, shows Saint John, Saint Peter and Saint Paul with Madonna and the child. Raphael had painted this work for the convent of Sant'Antonio which was held at Perugia. On the desires of the nuns, Raphael painted this work in a very conservative manner and the painted...
