, *Learning, Design, and Technology* J. Michael Spector, Barbara B. Lockee, Marcus D. Childress, 2023-10-14 The multiple related fields encompassed by this Major Reference Work represent a convergence of issues and topics germane to the rapidly changing segments of knowledge and practice in educational communications and technology at all levels and around the globe There is no other comparable work that is designed not only to gather vital current and evolving information and understandings in these knowledge segments but also to be updated on a continuing basis in order to keep pace with the rapid changes taking place in the relevant fields The Handbook is composed of substantive 5 000 to 15 000 words peer reviewed entries that examine and explicate seminal facets of learning theory research and practice It provides a broad range of relevant topics including significant developments as well as innovative uses of technology that promote learning performance and instruction This work is aimed at researchers designers developers instructors and other professional practitioners

*Key Concepts in Primary Science* Vivian Cooke, Colin Howard, 2025-02-28 This is essential reading for all primary science trainee and beginning teachers who want to strengthen their science subject knowledge Each chapter tackles a major theme of the new national curriculum and breaks it down into key concepts For each concept there is a detailed audit to help readers identify their current levels of knowledge and understanding along with areas for development This is followed by concise definitions key terminology detailed examples and in practice ideas to clearly relate theory to classroom practice Finally readers are invited to re check their understanding and assess their level of competence at the end of each section The text enables teachers to feel secure in their subject knowledge and confident about effectively conveying that information to their pupils through appropriate subject specific pedagogy

*STEM, Robotics, Mobile Apps in Early Childhood and Primary Education* Stamatios Papadakis, Michail Kalogiannakis, 2022-04-21 This book brings together a collection of work from around the world in order to consider effective STEM robotics mobile apps education from a range of perspectives It presents valuable perspectives both practical and theoretical that enrich the current STEM robotics mobile apps education agenda As such the book makes a substantial contribution to the literature and outlines the key challenges in research policy and practice for STEM education from early childhood through to the first school age education The audience for the book includes college students teachers of young children college and university faculty and professionals from fields other than education who are unified by their commitment to the care and education of young children

*Artificial Intelligence in Education* R. Luckin, K.R. Koedinger, J. Greer, 2007-06-29 The nature of technology has changed since Artificial Intelligence in Education AIED was conceptualised as a research community and Interactive Learning Environments were initially developed Technology is smaller more mobile networked pervasive and often ubiquitous as well as being provided by the standard desktop PC This creates the potential for technology supported learning wherever and whenever learners need and want it However in order to take advantage of this potential for greater flexibility we need to understand and model

learners and the contexts with which they interact in a manner that enables us to design, deploy and evaluate technology to most effectively support learning across multiple locations, subjects and times. The AIED community has much to contribute to this endeavour. This publication contains papers, posters and tutorials from the 2007 Artificial Intelligence in Education conference in Los Angeles, CA, USA.
