

USER'S MANUAL

1.0 GENERAL INFORMATION

General Information section explains in general terms the system and the purpose for which it is intended.

1.1 System Overview

ArboWebForest is application, which allows collecting information about forest plots. The application provides electronic version of form used in collecting plot information. The application saves data collected to database. Its operational status is under development. ArboWebForest operates on mobile devices with Android operating system.

1.2 Organization of the Manual

The user's manual consists of five sections: General Information, System Summary, Getting Started, Using The System, and Reporting.

General Information section explains in general terms the system and the purpose for which it is intended.

System Summary section provides a general overview of the system. The summary outlines the uses of the system's hardware and software requirements, system's configuration, user access levels and system's behavior in case of any contingencies.

Getting Started section explains how to get ArboWebForest and install it on the device. The section presents briefly system menu.

Using The System section provides a detailed description of system functions.

Reporting section describes in what way information collected by the application are presented and how to access the information.

Edward Bullard,F. E. Oglebay,Walter Heinrich Munk,Gaylord Riggs Miller,1966 BOMM is a system of programs which causes
an electronic computer to perform arithmetic operations on time series In devising the system the main objectives were 1 to
enable a wide variety of data formats to be accepted without recoding 2 to allow gross errors to be removed automatically
from the data 3 to provide a considerable variety of arithmetic operations and leave the user free to choose the order in
which they are applied and 4 to allow further processes to be incorporated into the system The present User s Guide provides
the information needed by the user in operating the system More complete details including flow diagrams of the programs
are given in a longer work entitled Manual of the BOMM System of Programs for the Reduction of Time Series Program
