

evaluation team (rather than just the team leader as originally envisaged) participate in the inception mission. This was in order to discuss expectations amongst the donor community and reach agreement on the final scope of the study so that those who in the end were funding the work would receive a product relevant to their needs.

Inception

The inception mission was also a valuable step in the process because it allowed the whole evaluation team to meet and develop a shared understanding of the task and work on an agreed approach. Vitality, too, it helped to sensitise, as well as engender interest and cooperation from a wide range of partners, some of whom had been somewhat reluctant to participate.

Several key changes were proposed and agreed during the inception. These were captured in the revised TOR and the Inception Report (See Annex 2 and 3):

- Expanded scope to encompass conflict sensitive development approaches explicitly.
- Limit documentary evidence mainly to published material, available in the public domain or provided to the team by the donors.
- Focus on three areas of donor intervention: conflict sensitive development, peacebuilding, and good government and human rights.

Risks

During the inception mission a set of risks were listed and mitigation measures proposed. Some of these risks drew on those raised in the original TOR:

1. Integrity and independence – addressed in the 3rd column of Table 1
2. Poor timing: mounting the evaluation during a difficult operating environment, leading to lack of access due to confidentiality
3. Sensitivity to findings – donors will review main report, raise concerns and ask for revisions. The team would address these to the extent that it may not compromise the quality of evidence
4. Misuse of findings in political discourse – this will require careful handling of any sensitive findings by the report owners during dissemination.

Table 1. Risk Management Measures

The fact that this is not an evaluation of the Peace process in Sri Lanka or of the behaviour of the GOBL would be highlighted. The NGPI is supportive but careful handling of others suggested – esp.
