The Rise of Africa's Middle Class Henning Melber, 2016-12-15 Across Africa a burgeoning middle class has become the poster child for the Africa rising narrative Ambitious aspirational and increasingly affluent this group is said to embody the values and hopes of the new Africa with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as important agents of both economic development and democratic change This narrative however obscures the complex and often ambiguous role that this group actually plays in African societies Bringing together economists political scientists anthropologists and development experts and spanning a variety of case studies from across the continent this collection provides a much needed corrective to the received wisdom within development circles and provides a fresh perspective on social transformations in contemporary Africa *Mountain Movers* Daniel M.

Franks, 2015-09-16 The products of mining are everywhere if it wasn't grown it was mined or drilled But the mining industry has a chequered past Pollution human rights abuses and corruption have tarnished the reputation of the industry across the globe Over a decade ago the major mining companies embraced the concept of sustainable and equitable development and embarked on an explicit process of reform but has the industry actually changed This book explores the dynamics of change making for sustainable development in the resources sector specifically the mining of mineral and energy resources The author recounts the stories and insights of over forty change makers both inside and outside the industry from anti mining activists to the professionals charged with the task of reform introducing the people who are moving an industry that moves

mountains The book takes stock of what has worked and what has not analyzing the relative influence and dynamics of the key corporate civil society and government actors with a view to developing new approaches for improving environmental and social outcomes from mineral and energy development Illustrated with case studies from Angola Australia Brazil Canada Chile Colombia El Salvador Guinea Peru The Philippines Romania Sierra Leone South Africa and The United States of America and brimming with the backstories to the major sustainability initiatives Mountain Movers reveals where progress has been made and where reform is still needed towards a more sustainable and equitable mining industry

The Global Muslim Brotherhood in Britain Damon Perry,2018-07-17 Since 2011 with the British Government's counter radicalisation strategy Prevent non violent Islamist groups have been considered a security risk for spreading a divisive ideology that can lead to radicalisation and violence More recently the Government has expressed concerns about their impact on social cohesion entryism and women's rights The key protagonists of non violent Islamist extremism allegedly include groups and individuals associated with the Muslim Brotherhood and Jama'at al Islami They have been described as part of the global Muslim Brotherhood but do they constitute a singular phenomenon a social movement This book shows that such groups and individuals do indeed comprise a movement in Britain one dedicated to an Islamic revival It shows how they are networked organisationally bonded through ideological and cultural kinship and united in a conflict of values with the British society and state Using original interviews with prominent revivalist leaders as well as primary sources the book also shows how the movement is not so much Islamist in aspiring for an Islamic state but concerned with institutionalising an Islamic worldview and moral framework throughout society The conflict between the Government and the global Muslim Brotherhood is apparent in a number of different fields including education governance law and counterterrorism But this does not simply concern the direction of Government policy or the control of state institutions It most fundamentally concerns the symbolic authority to legitimise a way of seeing thinking and living By assessing this multifaceted conflict the book presents an exhaustive and up to date analysis of the political and cultural fault lines between Islamic revivalists and the British authorities It will be useful for anyone studying Islam in the West government counter terrorism and counter extremism policy multiculturalism and social cohesion
