

Frisbee Golf

History of Frisbee Golf

Modern day Frisbee golf started in the late 60's. George Sappenfield, a Californian, realized that golf would be a lot of fun if played with Frisbees. He set up a course of targets for kids to play on. A year later Sappenfield introduced the game to many other Frisbee players. Many of them brought the game back to the U.C. Berkeley. It quickly became popular and they installed a permanent course in 1970.

Meanwhile on the East coast standardized targets were created and the game became more serious. It was "Steady Ed" Headrick, a great Frisbee innovator, that made the biggest contribution to the modern game. In 1976, Headrick and his son invented and patented the standardized disc catcher called a "Disc Pole Hole", which is still used today. With this invention he established the first permanent 18-hole course at Oak Grove Park in California. 1976 is known and accepted as the beginning of modern Frisbee golf. After 1976 the sport grew like crazy and never looked back. Now Frisbee golf has become the most widespread and popular organized frisbee sport.
