Humanitarian Dolls Patterns:

The Predicament of Privilege Devika Sharma, 2026-01-05 Is privilege a problem Scandinavians ask Is this okay and wrestle with the answer A twenty first century paradox has emerged in contemporary Scandinavian societies the region s deeply ingrained egalitarian ideals exist uneasily alongside its undeniable global privilege In *The Predicament of Privilege* Devika Sharma examines this tension exploring how a well intentioned desire to do good collides with an unsettling realization the very structures that enable ethical consumption charitable donations and humanitarian action are themselves embedded in a system of exploitation Through an incisive analysis of contemporary Scandinavian cultural texts *The Predicament of Privilege* introduces the concept of skeptimentality a pervasive moral ambivalence about virtuous emotions like compassion and generosity As Sharma demonstrates this sentiment does not necessarily lead to action but creates a vacuum leaving privilege sensitive publics with a crisis of conscience but no clear path forward Sharma s book challenges both the self image of Nordic societies and the broader assumptions of humanitarian ethics A necessary read for scholars cultural critics and anyone engaging with the politics of privilege this book offers a bold new perspective on the unfinished business of equality

Psychology in Africa (Psychology Revivals) Mallory Wober,2014-06-17 It is now well over a hundred and fifty years since the first celebrated geographical explorations of Africa took place However it was many years before there began quests of a different kind the investigation of behaviour personality attitude and ability among Africa's people Originally published in 1975 this book is an account of that work the first explorations in Africa of psychology In an exhaustive and well documented report the author a psychologist who had himself done research in Nigeria Uganda and who had lectured at Makerere University drew together the main threads of the research carried out so far putting the issues in an African perspective but anchoring them firmly within the framework of modern psychological thinking and technique of the time Are there any common personality and intellectual characteristics among Africans How does weaning affect African child development How have Africans feelings developed about city life and industrial work The questions the author considers range from the broad based to the specific The challenges which lay ahead for African investigators then moving into the mainstream of the work are also discussed But perhaps above all the book made a convincing case for psychology becoming a relevant and finely honed discipline in Black Africa characterised by practical application to Black African society Each chapter covers a defined area of modern psychology of the time and presents a comprehensive survey in a language no more technical than the subject warrants At the time it was felt this book would be invaluable to students of Africa secondary education whose course included a psychology component and to African students beginning a degree course in psychology It would also have provided an informative supplement to courses in medicine development studies political science sociology and anthropology

Who's who in America ,2003 Americans Without Law Mark S. Weiner,2006-06 Americans Without Law shows how the racial boundaries of civic life are based on widespread perceptions about the relative capacity of minority groups for legal behavior which Mark S Weiner calls juridical racialism The book follows the history of this civic discourse by examining the legal status of four minority groups in four successive

historical periods American Indians in the 1880s Filipinos after the Spanish American War Japanese immigrants in the 1920s and African Americans in the 1940s and 1950s Weiner reveals the significance of juridical racialism for each group and in turn Americans as a whole by examining the work of anthropological social scientists who developed distinctive ways of understanding racial and legal identity and through decisions of the U S Supreme Court that put these ethno legal views into practice Combining history anthropology and legal analysis the book argues that the story of juridical racialism shows how race and citizenship served as a nexus for the professionalization of the social sciences the growth of national state power economic modernization and modern practices of the self *In the Shadow of Ragged Mountain* Audrey J.
