Linda Huetinck,Sara N. Munshin,2008 This third edition of Teaching Mathematics for the 21st Century continues to help
teachers let the secret out to open up to their students the wonderful discoveries and challenges of the pattern making and
problem solving aspects of a fascinating subject mathematics The rationale remains the same to enable prospective and
current teachers to access and use tools and strategies to effectively teach mathematics to contemporary students Changing
demographics knowledge of how people learn and technology all impact the way we educate our young people This edition
incorporates lessons and strategies from programs that have proven success in many types of classrooms Many of these
examples help students connect mathematics to real life situations and communicate their understanding of the underlying
concepts Although technology is constantly being upgraded ways to increase student motivation through its application
remains a goal For example since applets can enhance a lesson whether the teacher uses a computer projector a smart board
or has students work individually on computers we have identified several sources of mathematics applets that can be
correlated to various lessons Research citations and summaries have been updated to reflect current information on teaching
