ethical vade mecum is completely invalid Specifically the multiple contradictions and absurdities contained in the Bible confer an unreliability upon it that undermines its function as a guide for anything let alone as some sort of moral map for the journey through life Furthermore many of the ideas that are promoted in Holy Writ are actually spiritually harmful In addition unless the condoned misogyny violence intolerance injustice and cruelty can be removed then it is difficult to view the Scriptures as anything like an unwavering celestial beacon that clearly lights the way through the moral fog that at times engulfs our lives Moreover the many errors that it contains including those about the natural world undermine the pivotal claim that the Bible is divinely inspired
