years ago As early as 1921 an international convention regarding this matter was presented to govern ments of maritime
countries for ratification The First World Health Assembly in 1948 recommended that WHO should establish with the
International Labour Of fice a Joint Committee on the hygiene of seafarers The first session of this Com mittee held in 1949
defined the problems affecting the health of seamen and made a number of recommendations In the opinion of this Joint
Committee the health of seamen called for interna tional attention for a nu mb er of reasons By the nature of his work the
seafarer is obliged to travel from country to country and is exposed to great variations of cli mate and also to any disease that
may be prevalent in the port of call He may there fore become a carrier of disease so that the protection of his health is of
importance not only to himself and the other members of the crew but also to the populations of other countries he visits Yet
on account ofthe nature ofhis employment it is diffi cult to provide the seafarer with the same standard of health care that is

Pentsov,2007-10-31 The importance of international maritime labour law both as a component of international maritime law and in socio political and economic terms has been recognised by the IMO International Maritime Law Institute for a number of years Indeed the Institute has annually organised a course on maritime labour law with the participation of inter alia the International Maritime Organization the International Labour Organization the International Transport Workers Federation and the German Shipowners Association It was therefore a great pleasure when the authors invited me to introduce their forthcoming monograph on Maritime Work Law Fundamentals Responsible Shipowners Reliable Seafarers As the title suggests a fundamental challenge of this branch of international maritime law is to achieve a balance between the interests of the two main stakeholders Institutionally the effort to achieve this balance dates back a number of decades with its genesis mainly found in the work of the International Labour Organization It has to be said that whilst this effort achieved great progress it has led to a haphazard plethora of legal instruments
