

Week 1

Diagnostics / Review

Part 1: Diagnostics

- Take the free diagnostics for all subjects:
 - Math
 - Grammar
 - Vocabulary
 - Biology
 - Reading
 - Anatomy & Physiology (AAP)

Review your results:

For topics where you scored well, check those items and only make additional practice if you are still getting a low score.

For topics where you scored low, read your objectives in those sections and take them one by one. For all of the material listed in this document, the goal is to be ready to go on your exam.

For the items you did well on, you should also review your objectives and objectives results. If you score 80% or above on a test, it means you are doing better than you think you are. You can now skip that part of your study plan, or you can review it to make sure you have it.

You can also check topics which you scored lower on the diagnostics to see what you can study on so that you have more time to work them.
