A Guided Inquiry Approach to Teaching the Humanities Research Project Randell K. Schmidt, Emilia N. Giordano, Geoffrey M. Schmidt, 2015-08-26 Aligned with the Common Core this book enables teachers and librarians to develop lessons and workshops as well as to teach high school students how to research and write a humanities paper using a guided inquiry approach Being able to use the inquiry process to successfully research write and prepare papers and others types of presentations is not only necessary for a

student's preparation for collegiate work but is truly a requisite life skill. This book provides a solid guided inquiry curriculum for cultivating the skills needed to properly investigate a subject in the humanities: interrogate both textual and non-textual sources, interpret the information, develop an understanding of the topic, and effectively communicate one's findings. It is a powerful and practical guide for high school humanities teachers, school librarians, community college humanities teachers and librarians, and early college level humanities instructors, as well as for high school and college students who want to learn how to conduct and write up humanities research. Part one comprises a teacher's practicum that explains the power of guided inquiry. Part two contains student's workshops with instructions and materials to conduct a guided humanities project and paper on the high school level. The third part provides materials for a professional development session for this assignment, as well as assessment tools and other supplementary materials such as student handouts. Based on the authors' 15 years' experience in teaching guided inquiry, the 20 workshops in the book use a step-by-step constructivist strategy for teaching a sophisticated humanities project that enables college readiness.

[The Essential Guide](#) James D. Lester (Sr.), James D. Lester, 2008. Low cost, small trim size, and concise coverage make this research guide a valuable but non-intrusive supplement to a core text or anthology in any college course that requires a research paper. Coverage of Internet sources includes attention to critical evaluation of these sources and tips for using discipline-specialized search engines. Chapter on preparing electronic projects explains methods for incorporating slide presentations, web sites, web pages, and digital graphics into the research paper. Increased coverage of the library's electronic resources, including academic databases. A new chapter 5 focuses on avoiding plagiarism and practicing academic integrity. New chapters 6 and 7 help students identify the best sources, evaluate them for relevancy, authority, and accuracy, and to create notes that paraphrase, quote, and summarize effectively. Complete and up-to-date coverage of four documentation systems: MLA, APA, CBE, and Chicago style. Also includes coverage of electronic sources according to the latest editions of these respective style manuals.
