Accessions Aanwinste Sept 1957 **Exile Identity, Agency and Belonging in South Africa** Zosa De Sas
Kropiwnicki, 2017-07-13 This book examines the experiences of 49 second generation exiles from South Africa Using
generation as an analytical concept it investigates the relational temporal and embodied nature of their childhoods in terms
of kinship relations life cycle cohort development and memory making It reveals how child agents exploited the liminal
nature of exile to negotiate their sense of identity home and belonging while also struggling over their position and power in
formal Politics and informal politics of the everyday It also reflects upon their political consciousness identity and sense of
civic duty on return to post apartheid South Africa and how this has led to the emergence of the Masupatsela generational
cohort concerned with driving social and political change in South Africa *Culture, philosophies and reforms in public
administration for the globalizing world* Edwin O.C. Ijeoma, Ogochukwu I. Nzewi, 2018-12-31 The aim of this scholarly
collected work is to contribute to the scientific discourse on public administration in a globalised environment The book
reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so
called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called
middle range discourses concerning organisational level issues in government e.g. leadership and work procedures and
explores new solutions to old governance challenges like corruption and service delivery The uniqueness of this collected
work lies in its ability to reflect on existing philosophies and practices in an innovative way Through its multidisciplinary lens
the book opens up a new vision for the future of public administration in the South African context and on the African
continent not neglecting the current local regional and global environment Until recently globalisation was considered an
entrenched world order but international political events during the course of the past few years have resulted in one of the
biggest challenges to its endurance in recent history This includes developments such as the successful referendum in Britain
to exit the European Union highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of
the unravelling of the current globalism world order These developments inspire deeper interrogation of the challenges to
effective public administration globally and the ripple effects in South Africa and Africa as a whole Pointedly it is evident that
ensuring the voice of citizens in policy decision making remains a critical governance challenge On the policy front there are
perennial challenges of land reform service delivery and poverty while on the governance front corruption has metastasised
with a growing culture of impunity and lack of accountability in leadership In the midst of growing corruption and more than
20 years into democracy South Africa's income inequality remains one of the highest in the world This setting constitutes the
context of the research outcome published in this scholarly work *Southern African Liberation Struggles* A. J. Temu, Joel
