Taking action to protect children from the harmful impact of food marketing World Health Organization,United Nations Children's Fund,2023-07-07 *Distant Markets, Distant Harms* Daniel Finn,2014-03-19 Does a consumer who bought a shirt made in another nation bear any moral responsibility when the women who sewed that shirt die in a factory fire or in the collapse of the building Many have asserted without explanation that because markets cause harms to distant others consumers bear moral responsibility for those harms But traditional moral analysis of individual decisions is unable to sustain this argument Distant Harms Distant Markets presents a careful analysis of moral complicity in markets employing resources from sociology Christian history feminism legal theory and Catholic moral theology today Because of its individualistic methods mainstream economics as a discipline is not equipped to understand the causality entailed in the long chains of social relationships that make up the market Critical realist sociology however has addressed the character and

functioning of social structures an analysis that can helpfully be applied to the market The True Wealth of Nations research project of the Institute for Advanced Catholic Studies brought together an international group of sociologists economists moral theologians and others to describe these causal relationships and articulate how Catholic social thought can use these insights to more fully address issues of economic ethics in the twenty first century The result was this interdisciplinary volume of essays which explores the causal and moral responsibilities that consumers bear for the harms that markets cause to distant others

Commentaries on the Laws of England Herbert Broom, Edward Alfred Hadley, 1875 [In Harm's Way](#) Kathleen Kern, 2009-01-01 In 1984 Evangelicals for Social Action founder Ron Sider posed the questions What would happen if we in the Christian church developed a new nonviolent peacekeeping force ready to move into violent conflicts and stand peacefully between warring parties Everyone assumes that for the sake of peace it is moral and just for soldiers to get killed by the hundreds of thousands even millions Do we not have as much courage and faith as soldiers Christian Peacemaker Teams CPT has been trying to answer those questions since 1986 CPT has responded to invitations from grassroots organizers on five continents who are using nonviolent strategies to confront systemic oppression This book provides a glimpse into the mistakes and successes the triumphs and tragedies that teams have shared in with local co workers in various nations It also continues to pose the question What would happen if CPT s efforts were multiplied by millions of Christians with a radical commitment to Jesus s nonviolent gospel
