**Assessment 3.0** Mark Barnes, 2015-01-28 Throw out gradebooks and meet the assessment system of the future Most educators take for granted that A through F grades are the best measure of learning But Mark Barnes's formula for feedback titled SE2R Summarize Explain Redirect Resubmit has delivered stunning results to the forward thinking schools that have tried it Now you can tap into the power of SE2R to supercharge student learning and accountability The method in this book will loosen and then break your classroom's dependence on traditional grading systems that do little more than silence student voices Delving into what really motivates students the book covers

How GPA is a classic example of the tail wagging the dog Utilizing mobile devices and social networks to maximize the benefits of SE2R Addressing and overcoming bureaucratic resistance to change Real life case studies proving SE2R s viability Your greatest responsibility is to your students Don t wait another day to start dismantling the grading system that is currently failing them all Revolutionary Why Tossing out grades does not equate tossing out learning We spend a lot of time talking about data and growth In Assessment 3 0 Mark Barnes focuses on the revelation and growth of the Independent Learner our students This is a great read for any teacher or administrator Creed Anthony Teacher Writer of Your Parent Teacher Conference weekly column on LifeofDad com Mark Barnes is a leader and revolutionary voice in the movement to rid our educational system of an outdated assessment model In Assessment 3 0 he delivers a persuasive pitch that current grading practices are both poor reflections of learning and damaging to students Not only does he clearly define the problem he offers a powerful solution with his SE2R model and delivers a blueprint for implementation that can transform classrooms and schools Dave Burgess Educator Professional Development Speaker and Author of Teach Like a Pirate Barnes is bold insightful and right It is time to not only throw out your grade books but all the misinformation in your brains that supports the need for grades None of us became teachers so we could have color coded grade books We became educators to make a difference in the minds of our students This book shows us how Russell J Quaglia President Founder Quaglia Institute for Student Aspirations This text contains outstanding resources for communicating to stakeholders who care about how assessment systems can impact student behaviors and performances If you are interested in changing how students and teachers view traditional grading systems this book is a must read Assessment 3 0 can be a revolutionary tool D Allan Bruner National Board Certified Teacher Colton High School Colton OR Mark has done something important in writing this book He argues clearly and with hope for specific actionable change right now in our early 21st century classrooms Here s the potential here s the problem and here s a way forward This is a practical model for ed reform in general Terry Heick Director of TeachThought Nothing destroys a student s creativity and passion for learning as fast or as completely as grades Mark Barnes examines how that happens In Assessment 3 0 but he does much more than simply critique standard assessment tools which have remained virtually unchanged in America for over 100 years The veteran teacher guides readers through a fascinating investigation of how throwing out grades while embracing digitally enhanced independent learning fosters a superior learning environment one that also does a far better job of developing real world skills that prepare students to excel in the world of tomorrow This book has completely transformed how I approach teaching and I can t recommend it highly enough to anybody interested in the future not just of education but also our nation David Cutler National Association of Independent Schools Teacher of the Future ontributor The Atlantic and Edutopia *Simon & Schuster Mega Crossword Puzzle Book #21* John M. *Up With Language Series: Nouns & Pronouns*, *Pop Culture and Power* Dawn H. Currie, Deirdre M. Kelly, 2022-03-01

Literacy education has historically characterized mass media as manipulative towards young people who as a result are in need of close reading skills. By contrast *Pop Culture and Power* treats literacy as a dynamic practice shaped by its social and cultural context. It develops a framework to analyse power in its various manifestations arguing that power works through popular culture not as everyday media. *Pop Culture and Power* thus explores media engagement as an opportunity to promote social change. Seeing pop culture as a teaching opportunity rather than as a threat Dawn H Currie and Deirdre M Kelly worked with K 12 educators to investigate how pop culture can support teaching for social justice. Currie and Kelly began the research for this project with a teacher education seminar in media analysis where participants designed classroom activities using board games popular film music videos and advertisements. These activities were later piloted in participants classrooms enabling the authors to identify and address practical issues encountered by student learners. Case studies describe the design implementation and retrospective assessment of activities engaging learners in media analysis and production. Following the case studies the authors consider how their approach can foster ethical practices when engaging in the digital environment. *Pop Culture and Power* offers theoretically informed yet practical tools that can help educators prepare youth for engagement in our increasingly complex world of mediated meaning making.
