Judgment English Edition:

The Science of Legal Judgment James Ram, John Townshend, 1871 Political Judgement (Routledge Library Editions: Political Science Volume 20) Ronald Beiner, 2013-06-17 Originally published in 1983 One of the basic capacities of man as a political being is his faculty of judgement Yet for all the books on concepts like freedom equality and authority surprisingly little attention has been given to this topic in the tradition of Western political thought What is the nature of political judgement What endows us as human beings with the ability to make reasonable judgements about human affairs and to judge the common world we share with others By what means do we secure validity for our judgements What are the underlying conditions of this human capacity and what implications does it have for the understanding of politics These questions central as they are to any reflection on politics have rarely been addressed in a systematic way This book examines Kant's concept of taste and Aristotle's concept of prudence as well as recent works of political philosophy by Arendt Gadamer and Habermas all crucially influenced by Kant and Aristotle *Decennial Edition of the American Digest*, 1909 **Second Decennial Edition of the American Digest**, 1920 **Forms of Judgments and Orders in the High Court of Justice and Court of Appeal** Sir Henry Wilmot Seton, 1912 **Broberg and Fenger on Preliminary References to the European Court of Justice** Morten Broberg, Niels Fenger, 2021-03-25 This book is structured to reflect the different questions that may arise in connection with a preliminary reference It explains who can make a reference what questions can be referred and when can when should and when must a reference be made Thereupon the book provides detailed guidance on the form and contents of the actual reference as well as the procedure both before the referring court and the European Court of Justice Finally the preliminary ruling and its effects are explained together with the questions of cost and legal aid Now in its third edition this book has proved to be of considerable value to the legal practitioner faced with the subtleties of a preliminary reference be it as judge or advocate However it is much more than an advance practitioners guide With backgrounds as both practitioners and academics the two authors have produced a book that also caters for the needs of academics The practical guidance is thus supplemented by the critical analysis of the Court of Justice's practice This fully updated and revised edition of Broberg and Fenger on Preliminary References to the European Court of Justice provides a meticulous yet easily accessible examination of all aspects of the preliminary reference procedure The Indian Code of Criminal Procedure. Fifth Edition. Viz., the Code of Criminal Procedure, Act X. 1872; Together with the Alterations ... Made by Act XI. 1874. With Rulings ... By Fendall Currie ... With ... Revision of Arbitral Awards Beyond the Model Law Viktor Előd Cserép, 2026-02-10 In terms of recourse against arbitral awards the application for setting aside pursuant to Article 34 of the UNCITRAL Model Law on International Commercial Arbitration immediately comes to mind the sole recourse before a court of the seat available within a short time limit on a select few grounds This is indeed the baseline Yet several jurisdictions allow recourse against arbitral awards within longer time limits and on additional grounds Some arbitration laws even provide for further means of recourse Such possibilities are available in exceptional circumstances only These typically include the discovery of facts evidence or instances of fraud that may have influenced the outcome of the arbitration The author sets out to ascertain whether and how the retrial of arbitration proceedings can be possible in such cases The work contains an overview of res judicata and extraordinary means of recourse that allow the reopening of proceedings in the general context of litigation a description of the effect of arbitral awards and recourse against them in the Model Law a delineation of models for retrial in arbitration additional grounds for setting aside autonomous means of recourse before a state court or the arbitral tribunal claim for damages to recreate the

correct financial situation a summary of relevant trends in case law and legislation a comparative analysis of solutions in selected jurisdictions Switzerland Austria Germany Hungary England and Wales and more covering admissibility time limits grounds and procedure a discussion of retrial in arbitration in abstracto in light of the basic principles of arbitration and the role party autonomy may play in shaping the means of recourse available against arbitral awards The book aims to explore possibilities of challenging arbitral awards in jurisdictions that go beyond the text of Article 34 of the Model Law Such next level recourse against arbitral awards is examined on the basis of real cases as well as at the level of theory and policy and thus may be of interest to practitioners academics and policymakers alike **The Southern Law Review** ,1872
