HARD DOLLAR FOR CONSTRUCTION, ENGINEERING, AND PUBLIC SECTOR ESTIMATING

Hard Dollar's award-winning Project Cost Management solution creates cost confidence and profits with increased visibility, standardization, automation, and control over project costs through estimate creation, timesheet entry, productivity management and project analysis in real-time, along with real-time resource and cost loaded scheduling integration with industry leading project management software packages.

Hard Dollar infrastructure software enables:

- Conceptual to detailed productivity based estimating.
- Bidding and tender processing.
- Integrated cost and resource loaded schedules.
- Automated timesheet collection.
- Productivity, equipment and material tracking with web-based analytical dashboards.
- Reporting for anywhere access.
- Support for DOT and governmental websites eliminates data entry and ensures faster and accurate bids.

Gain an A+B Bidding Edge

A+B bidding continues to gain popularity for public works projects, and is forcing contractors to re-think estimating and bidding methodologies. In A+B bids, the contractor submits both a price (the "A" portion) and a duration (the "B" portion) as part of the bid package. The state or other government agency financing the project establishes a daily cost associated with the job, and multiplies that daily cost by the duration bid by each contractor. The contractor with the best combination of cost and duration - $A+B$ - is awarded the work.
