HOW TO WRITE A MASTERS THESIS PROPOSAL

II. Structure of a thesis proposal

Your thesis proposal should have the following elements in this order:

- Title page
- Abstract
- Table of contents
- Introduction
- Thesis statement
- Approach/methods
- Preliminary results and discussion
- Work plan including time table
- Implications of research
- List of references

You can get assistance for Writing a Masters Thesis Proposal from Robert at R21441417@unimelb.edu.au

The structure is very similar to that of a thesis or a scientific paper. You will be able to use a large fraction of the material of the thesis proposal in your final master thesis. Of course, the size of the individual projects at the end of the fall will vary, and therefore also the format of the elements discussed below.

Title page

- contains short, descriptive title of the proposed thesis project (should be fairly self-explanatory)
- and author, institution, department, research center, mentor's institution & email address, advisor's name, institution and email address, and date of delivery

Abstract

- the abstract is a brief summary of your thesis proposal
- its length should not exceed ~200 words
- present a brief introduction to the issue
- make the key statement of your thesis
- give a summary of how you want to address the issue
- include a possible implication of your work, if reasonably compelling

Table of contents

- list all headings and subheadings with page numbers
- indent subheadings
