The Company of Wolves James Gracey, 2017-08-01 Co written by Irish filmmaker Neil Jordan and British novelist Angela Carter and based on several short stories from Carter's collection *The Bloody Chamber* *The Company of Wolves* 1984 is a provocative reinvention of the fairy tale of Little Red Riding Hood Unraveling a feverish metaphor for the blossoming of a young girl's sexuality and her subsequent loss of innocence the film entwines symbolism and metaphor with striking visuals and grisly effects Released in the early 1980s a time which produced several classic werewolf films including *An American Werewolf in London* and *The Howling* *The Company of Wolves* sets itself apart from the pack with its overtly literary roots feminist stance and art house leanings The film's narrative takes the form of a puzzle box unfolding as dreams within dreams and stories within stories which lead further into the dark woods of the protagonist's psyche as she finds herself on the cusp of womanhood This *Devil's Advocate* explores all these aspects as well as placing the film in the context of the careers of its creators and its position as an example of the Female Gothic

The Politics of Magic Qinna Shen, 2015-06-15 The first comprehensive critical book length treatment of the live action fairy tale films from former East Germany From Paul Verhoeven's *The Cold Heart* in 1950 to Konrad Petzold's *The Story of the Goose Princess* and *Her Loyal Horse Falada* in 1989 East Germany's state sponsored film company DEFA Deutsche Film Aktiengesellschaft produced over forty feature length live action fairy tale films based on nineteenth century folk and literary tales While many of these films were popular successes and paved the way for the studio's other films to enter the global market DEFA's fairy tale corpus has not been studied in its entirety In *The Politics of Magic* DEFA Fairy Tale Films Qinna Shen fills this gap by analyzing the films on thematic and formal levels and examining their embedded agendas in relation to the cultural politics of the German Democratic Republic In five chapters Shen compares the films with earlier print versions of the same stories and analyzes revisions made in DEFA's film adaptations She also distinguishes the DEFA fairy tale films from National Socialist West German and Disney adaptations of the same tales Her archival work reconstitutes the cultural historical context in which films were produced and received and incorporates the films into the larger narrative of DEFA For the first time the banned DEFA fairy tale comedy *The Robe* 1961 1991 is discussed in depth The book's title *The Politics of Magic* is not intended to suggest that DEFA fairy tale films were merely mouthpieces of official ideology and propaganda On

the contrary Shen shows that the films run the gamut from politically dogmatic to implicitly subversive from kitschy to experimental She argues that the fairy tale cloak permitted them to convey ideology in a subtle indirect manner that allowed viewers to forget Cold War politics for a while and to delve into a world of magic where politics took on an allegorical form The fact that some DEFA fairy tale films developed an international audience particularly *The Story of Little Mook and Three Hazelnuts for Cinderella* not only attests to these films universal appeal but also to the surprising marketability of this branch of GDR cinema and its impact beyond the GDR s own narrow temporal and geographic boundaries Shen s study will be significant reading for teachers and students of folklore studies and for scholars of German Eastern European cultural film media and gender studies
