

Everyone has a problem about something that needs to be resolved. With close to 40 years of academic experience and coming from a mathematical background the author has not met a single person who can truthfully claim not ever having a problem. Challenges are everywhere! They occur every day. They are faced by everyone. They become so insurmountable that they literally assume problem status. Even if someone helps you solve a problem you cannot depend on that person or others to keep solving your problems. Besides, you would always have a problem to be solved. This self help book addresses the knots and bolts of how to hone problem solving skills in a simple straightforward manner that anyone can understand with minimum effort and expertise. The author uses numerous familiar quotations from the public domain to serve as thought provoking stimuli to drive home the views shared in each section. The shareware graphics punctuate the text and serve to lighten the tone, augment the explanations and bring comic relief. The strategies discussed in the book can help anyone. This is your 'go-to' book when you need help with problem solving. Enjoy!

How to Enhance Learning Efficiency When Online

Learning is Popular and Indispensable: Theory, Research and Practice Rong Lian,Chang Liu ,Juzhe Xi,2024-07-17

Online learning has become more and more common globally whether for comfort adapting to work hours or just having the freedom to study from anywhere And now under the coronavirus pandemic as people are having to stay at home it has become more important than ever Although the popularity of wireless network and portable smart device makes it possible for people to acquire and learn knowledge anytime and anywhere it does not necessarily mean an increased learning performance Relevant research in cognitive science has revealed possible limitations in online learning For example the knowledge acquired through online learning tends to be fragmented and lacks guidance for integrated thinking among different subjects which makes it difficult for learners to form a systematic knowledge structure Learners may experience cognitive overload metacognitive illusion and low learning efficiency in self regulated learning It follows that in the post COVID 19 era online learning puts forward new requirements and challenges to the contemporary students not only to their learning strategies but positive character traits in learning Most of the current learning theories were developed in the early 20th century and may not fit in well with the current situation then possibly leading to inefficient learning and increased learning burden Therefore it is necessary and important to reexplore the influencing factors and mechanisms that affect the learning efficiency of students at all levels nowadays based on which we could construct a theoretical model of efficient learning model
