to Watch Out For!

| LOGICAL FALLACY | DESCRIPTION |
|----------------------|--|
| Ad Hominem | Attacking the person making the argument instead of addressing the argument itself. |
| Straw Man | Misrepresenting or exaggerating someone's argument to make it easier to attack. |
| False Dilemma | Presenting only two options as if they are the only choices, when in reality there may be other options. |
| Slippery Slope | Suggesting that one event will lead to a chain reaction of negative events without providing evidence for the claim. |
| Appeal to Authority | Using the opinion of an authority figure as evidence, without considering whether the authority figure is actually an expert on the subject. |
| Bandwagon | Arguing that something is true or right simply because many people believe it or do it. |
| Hasty Generalization | Drawing a conclusion based on insufficient evidence or a small sample size. |
| False Cause | Assuming that because two things happen at the same time, one caused the other. |
