

AP Microeconomics Midterm Study Guide

Scarcity, Opportunity Costs, and Trade Offs

- Scarcity: limited nature of society's resources
- Opportunity Costs: the value of the next best thing that is given up when a choice is made
 - (ex: when Carla goes to college, her O.C is the \$\$\$ she would have made doing something else with her time)
- Trade Offs: whatever must be given up to obtain some item
 - Trade off is tangible

Productions Possibility Frontier

- 4 Key Assumptions
 - 1) Only 2 goods can be produced
 - 2) Full employment of resources
 - 3) Fixed technology
 - 4) Fixed resources (*Ceteris Paribus*)
- PPF / PPC / PPG: a model that shows alternative ways an economy can use its resources by evaluating scarcity, trade offs, opportunity costs, and efficiency. Shows the combinations of output that an economy can possibly produce given the available factors of production and the available production technology.
- Straight Line: Follows the law of constant opportunity cost, meaning that resources are easily adaptable for producing either good.
- Bowed Out: Follows the law of increasing opportunity costs, meaning that as you produce more of any good, the opportunity cost (foregone production of another good) will increase; resources are NOT easily adaptable to producing both goods. Also known as a concave PPC.
- When points move along the curve, the market is at productive efficiency.
- Points outside of PPC: unattainable given present resources, can ONLY be reached with trade
- Shifters of PPC
 - 1) Change in resource quantity or quality
 - 2) Change in technology
 - 3) Change in trade

Career is a primer on the common scholastic demands that social sciences students face upon entering college or university. Based on the challenges that instructors most often find students need help with, the authors offer practical advice and tips on topics such as how to communicate with instructors, take notes, read a textbook, research, and write papers and write successful exams. The succinct writing and clear organization make this an essential reference for first-year students as they encounter post-secondary work for the first time and a useful refresher for upper-year students looking to refine their skills.

Microeconomics Edward Tower, 1980 **Business Economics** Richard Schwindt, 1995 *Study Guide for Microeconomics* Michael Parkin, 2007-05.
