Emerging Perspectives and Trends in Innovative Technology for Quality Education 4.0 Udan Kusmawan, Siti Aisyah, Isti Rokhiyah, Andayani, Della Raymena Jovanka, Dodi Sukmayadi, 2020-05-14 Industrial Revolution 4.0 has dramatically changed the business and social landscape including human behavior not only in advanced countries but also in emerging countries. Technology development affects many aspects in our society including education. Distance learning, big data, and analytics, artificial intelligence, and many digital innovations have been released to improve better quality education in our society. These proceedings provide selected papers research about innovative digital technology in education and pedagogy in Industrial Revolution 4.0 covering issues like pedagogy, education management, early childhood education, research in education, training and vocational education, and social science education, earth science education, and art, linguistic education related to digital innovation. This book provides details beyond what is possible to be included in an oral presentation and constitute a concise but timely medium for the dissemination of recent research results. It will be invaluable to professionals and academics in the field of education and pedagogy to get an understanding of recent research. Philosophy of Science for Machine Learning Juan M. Durán, Giorgia Pozzi, 2026-01-09 This open access book offers a comprehensive and systematic debate on the key concepts and areas of application of the philosophy of science for machine learning. The current landscape of the debate about the epistemic and methodological challenges raised by machine learning in scientific fields is fragmented and lacks a common thread that helps to understand the complexity of the issue. Against this background, this book brings together expert researchers in the field structuring the debate in ways that allow readers to navigate quickly in this evolving field of research and pave the way to new paths of philosophical and technical research. Although the book is written from the perspective of philosophy of science and epistemology, it is of interest to philosophers in a myriad of fields such as philosophy of mind, philosophy of language, philosophy of neuroscience, and metaphysics of science, STS studies, as well as to researchers working on technical and computational issues such as explainability, trustworthiness, interpretability, transparency. **HBR Guide for Women at Work (HBR Guide Series)** Harvard Business Review, 2018-10-23 Make your career what you want it to be. Women regularly face unfair challenges in the workplace from being passed over for promotion to being ignored in conversation. Unconscious bias and negative assumptions are working against them. As a woman, how can you break through these barriers and get what you want from your career? The HBR Guide for Women at Work will help you identify and overcome the factors that are holding you back. It provides practical tips and advice so you can face gender stereotypes head on, make yourself visible when opportunities arise, and demonstrate your leadership skills. You'll learn to speak up in meetings in a way that ensures your ideas will be heard, wield influence by building the right relationships, advocate for yourself and for what you want, align yourself with mentors and sponsors to support your growth, show passion without being perceived as too emotional, create your unique vision as a leader. **Insights in teacher education: 2022** Stefinee Pinnegar, Ramona
