TERMINAL QUESTIONS

UNIT-1

Q1. Explain the concept of market and marketing.

Answer

Market:

The business context of the market is the meeting point of buyers and sellers who interact to trade goods, services, and information. This comprises the relationship between supply (sellers who deliver items or services) and demand (buyers who request these products or services). A market is a multi-dimensional entity. It can exist in the form of a physical location appropriate to a retail store or of an online platform or it can also be an abstraction as financial markets where securities are changed.

Characteristics that are indicative of the market as such are:

- 1. Participants:** Both the buyers and the sellers who are inquiring about transactions.
- 2. Products/Services:** Which things are being bought or sold?
- 3. Prices:** The amount which is a part of the transaction that the two parties agreed upon.
- 4. Competition:** Sales activity that involves other vendors with similar products.
- 5. Market Dynamics:** It is the impact of which the compensation, supply, demand, and price would be available.

Marketing:

Marketing is creating, communicating, delivering, and exchanging value offerings for customers, clients, partners, and society. This is the intellectual conception of how one customer's needs and requirements could be met and satisfied with particular products or services that provide value and benefits.

Here are the key aspects of marketing:

- 1. Market Research:** Awareness of the competitive situation, consumer preferences, and the strategies that improve the competition are obtained through the Market.
- 2. Product Development:** The development of goods or services that satisfy customers' needs.
