Why Sports Morally Matter William Morgan,2006-08-21 When we accept that advertisers and sponsors dictate athletic schedules that success in sport is measured by revenue that athletes' loyalties lie with their commercial agents instead of teams and that game rules exist to be tested and broken in the pursuit of a win what does our regard for sport say about the moral and political well being of our society Why Sports Morally Matter is a deeply critical examination of pressing ethical issues in sports and in society as a whole Exploring the broad historical context of modern America William J Morgan argues that the current state of sports is a powerful indictment of our wealth driven society and hyper individualistic way of life Taking on critics from all sides of the political debate Morgan makes the case that despite the negating effect of free market values sport still possesses important features that encourage social moral and political values crucial to the flourishing of a democratic polity It is this potential to transform society and the individual that makes sport a key battleground in the struggle for the moral soul of twenty first century America

Merchants, Barons, Sellers and Suits Christa Mahalik,2010-08-11 *Merchants Barons Sellers and Suits* The Changing Images of the Businessman through Literature originally began as a conversation about a hybrid course at Quinnipiac University Its purpose was to take an online English course for non traditional business majors and create a

theme that would be relevant to the business world Being given the task to create this course from the ground up was exciting and intriguing There turned out to be a lot more material that could be used for this theme than previously thought To gauge the temperature of the topic a panel was set up with the theme of businessmen or women and their changing image through literature At the 2009 NeMLA Northeast Modern Language Association conference in Boston the panel was held and many ideas such as some of the ones presented in this book were discussed A secondary theme evolved out of the construction of the first Participants discussed the environment as a catalyst in the change of what a person actually thinks a businessman or woman looks like Many of these images were formed based upon pop culture such as the traveling salesman in the Looney Tunes cartoons who sells brushes door to door and hails from Walla Walla Washington Others were based on the images read about in books such as Willy Loman from Death of a Salesman The essays included in this volume presented by doctoral candidates and scholars from across a range of geographical regions and disciplines result in a collection that investigates the idea of the changing image of the businessman throughout literature both in America and in Europe The arrangement of the collection is a comparative timeline allowing the changing images of business to evolve with each essay
