Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Koroku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the

nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology  
Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique  
Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the  
area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more  
towards innovations in economic growth With regard to human capital development papers presented evidence that there  
exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done  
within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an  
influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore  
it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an  
organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate  
the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on  
organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as  
criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles  
contribution reemphasised technology education and training as a means of digitising business and improving effectiveness  
Target audience The target readership is academic researchers and business leaders who require access to the latest  
developments in the fields of economics information management business education development studies social sciences  
and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new  
developments on existing policies and regulations for their review or amendment Loose Leaf for Project Management:  
The Managerial Process 7e Erik W. Larson,2017-02-03 As the market leading textbook on the subject Project Management  
The Managerial Process is distinguished by its balanced treatment of both the technical and behavioral issues in project  
management as well as by its coverage of a broad range of industries to which project management principles can be applied  
It focuses on how project management is integral to the organization as a whole The text not only delivers the tools and  
processes is essential to successful project management but also an understanding that the effectiveness of these tools and  
methods are shaped and determined by the prevailing culture of the organization and interpersonal dynamics of the people  
involved As such Larson Gray presents a holistic view that focuses on methodology as well as the human dimension and how  
they interact to determine the outcome of projects Connect is the only integrated learning system that empowers students by  
continuously adapting to deliver precisely what they need when they need it and how they need it so that your class time is  
more engaging and effective *The Innovation Approach* David C. Roach,2024-12-04 Revisiting the fundamentals of  
innovation by considering the strengths and weaknesses of Design Thinking and the Lean Startup expert David C Roach  
focuses on innovation management and emphasizes the importance of managing the front end of innovation where critical
