

US Government

Module 1 Study Guide

1.01 Natural Rights

What is government? Why does government exist?

Government exists to protect our basic rights and to provide order and safety to its citizens.

The purpose of government is to keep the peace within its territory, protect its citizens, provide important services, and maintain public institutions.

Laws are rules established by government or other sources of authority to regulate people's conduct or activities (US Constitution)

Citizens agree to follow the law because they protect the common good and our rights.

Citizen duty to follow the law and not even the president is above the law. Citizens can challenge the law through the court system.

Citizen consent to laws, and upholding the rule of law affirms the legitimacy of government.

Anarchy- an absence or lack of any formal system of government or control

Authority- the right to command, or the holder of official power

Public policy-a course of action accepted or used by a government to respond to a problem

Institutions- an established organization that is influential in the community

Infrastructure- the basic physical systems of a community's people, including roads, electric power, and water supply

US Constitution-the plan detailing the structure, functions, and powers of the government of the United States, also known as the Constitution

Rule of law-the principle that both those who govern and those who are governed must obey the law and are subject to the same laws
