... **to whom** they think they are giving their information - e.g. to you direct; to somebody else through you; to you as a less experienced colleague; to you as an equal; to you as a better informed or better placed colleague; or not to you at all, but to some other specific or generalised audience; whether they believe there is a relationship of trust, or a mutually beneficial arrangement of some kind, or no relationship at all between them and you or their other intended audience

... **how** they communicate - i.e. what form(s), manner(s) or style(s) of delivery they've used on this occasion, compared with those they are given to using elsewhere; how formal or informal, studied or spontaneous, distilled and structured or elaborative and exploratory their communications are

... **when** the communication was composed, transmitted and received; what temporal considerations (amount of time taken, allowed or required; time of day; time of year etc.) influenced the composition, transmission and reception; how much time elapsed between the request for information and the response; how much time the communicator believes will elapse before you get back to them
