

# How to Write an Exploratory Essay?

5 pages | 1044 words

There are plenty sorts of essays. This assignment implies liberal rules and gives certain freedom of action and thought to the writer. But still, there are sorts of essays that demand to make quite a large volume of efforts. One of these sorts is an exploratory essay. It wants you to perform some specific work. First of all, it requires lots of analysis of different sources. You need to explore different points of view on a certain question and consolidate it in one text. You cannot just rely on your feelings concerning the topic but to convey some serious research in the field. It is a kind of academic writing that shows you as mature and qualified person, whose possibilities go far than possibilities of a simple student. You need to devote much more time to this assignment comparing with the other kinds of essay. Scared? You should not because it only sounds so fearful. Let's look through this article that will help you to understand how to make the exploratory essay well.

## What is an Exploratory Essay?

As it is clear from the title, your task is to explore some specific topic. You do not need to stand for or against it but only to provide all possible approaches to it. In some sense, you do not need to invent something new but only to compile the existing thoughts on the field. However, it would only benefit you if you add some new meaning to the topic or come to some unexpected conclusion. The restriction is quite conditional, and you are free to state your own thought on the topic. But still, do not forget to use existing opinions and approaches. You should be objective and pay equipollent attention to everything that has a connection with your topic. You do not have a specific audience so feel free to write it in your own way but still remember about some common audience that could be interested in your essay.

## How to Choose a Good Exploratory Essay Topic

In order to come up with the proper topic, you need to look through the problems that are of current interest in nowadays world and that still cause noticeable controversies. It may be on the field of ethical questions, collisions between cultures (such as Swiss initiative against the construction of minarets), historical and contemporary questions on politics inside the culture. These examples are far not the final list, and it would be great if you find something more specific. In other words, you need to find something that excites public opinion. It implies the existence of more than even two opinions on the topic. You are not asked to solve this problem but only to explore why it is still relevant. After reading your essay, there should leave the same quantity of the questions or even more. Your aim is to acquaint your reader with this question and explain him why does he or she need to know this information.

**Essay Writing** MunLing Shields, 2010-02-16 Essay Writing is a student guide with a mission to enable students to write better essays and get the grades they deserve by demystifying the essay writing process. MunLing Shields places essay writing within the larger university experience for students. In a clear and easy-to-understand way, the author guides the reader through the process of writing successful university essays by looking at essay writing in the context of academic communication, academic culture, and different learning styles and approaches. This book helps students study more independently and learn more meaningfully to write better essays. Offers invaluable insights into the way tutors see essays. Explains why essays are set and how to understand the rationale behind them. Demonstrates how best to approach answering the question. This highly accessible book offers practical, in-depth guidance on each of the stages of the essay writing process: planning, drafting, and editing, and relates them to the important sub-skills of information gathering, reading academic texts, how to get the most out of lectures, referencing and citations, and fluency and appropriateness of style and language. An excellent guide for students new to writing essays at university. David Ellicott, Senior Lecturer in Youth Justice and Youth Studies, Nottingham Trent University. SAGE Study Skills are essential study guides for students of all levels. From how to write great essays and succeeding at university to writing your undergraduate dissertation and doing postgraduate research, SAGE Study Skills help you get the best from your time at university. Visit the SAGE Study Skills hub for tips, quizzes, and videos on study success. *Instructor's Manual* Patrick Geary, Patricia O'Brien, Nancy Wood, 2003-09 Writing in Response Matthew Parfitt, 2011-12-23 Writing in Response is a flexible brief rhetoric that offers a unique focus on the critical practices of experienced readers: analysis and reflection, the skills at the heart of academic writing. It helps students compose academic essays by showing how active reading and exploratory writing bring fresh ideas to light and how informal response is developed into polished, documented prose. Extensively class-tested, Writing in Response emphasizes the key techniques common to reading, thinking, and writing throughout the humanities and social sciences by teaching students the value of a social, incremental, and recursive writing process. Bean, Dan Melzer, 2021-06-09 Use your course's big ideas to accelerate students' growth as writers and critical thinkers. The newly revised third edition of Engaging Ideas delivers a step-by-step guide for designing writing assignments and critical thinking activities that engage students with important subject-matter questions. This new edition of the celebrated book, now written by the co-author team of Bean and Melzer, uses leading and current research and theory to help you link active learning pedagogy to your courses' subject matter. You'll learn how to design formal and informal writing assignments that guide students toward thinking like experts in your discipline. Use time-saving strategies for coaching the writing process and handling the paper load, including alternatives to traditional grading such as portfolio assessment and contract grading. Help students use self-assessment and

peer response to improve their work Develop better ways than the traditional research paper to teach undergraduate reading and research Integrate social media multimodal genres and digital technology into the classroom to promote active learning This book demonstrates how writing can easily be integrated with other critical thinking activities such as inquiry discussions simulation games classroom debates and interactive lectures The reward of this book is watching students come to class better prepared more vested in the questions your course investigates more apt to study purposefully and more likely to submit high quality work Perfect for higher education faculty and curriculum designers across all disciplines Engaging Ideas will also earn a place in the libraries of graduate students in higher education **The Scott, Foresman Handbook for**

Collaborative Multidisciplinary Design Optimization for Conceptual Design of Complex Products Edris Safavi, 2016-10-06 MULTIDISCIPLINARY design optimization MDO has developed in theory and practice during the last three decades with the aim of optimizing complex products as well as cutting costs and product development time Despite this development the implementation of such a method in industry is still a challenge and many complex products suffer time and cost overruns Employing higher fidelity models HFMs in conceptual design one of the early and most important phases in the design process can play an important role in increasing the knowledge base regarding the concept under evaluation However design space in the presence of HFMs could significantly be expanded MDO has proven to be an important tool for searching the design space and finding optimal solutions This leads to a reduction in the number of design iterations later in the design process with wiser and more robust decisions made early in the design process to rely on In complex products different systems from a multitude of engineering disciplines have to work tightly together This stresses the importance of evolving various domain experts in the design process to improve the design from diverse engineering perspectives Involving more engineers in the design process early on raises the challenges of collaboration known to be an important barrier to MDO implementation in industry Another barrier is the unavailability and lack of MDO experts in industry those who understand the MDO process and know the implementation tasks involved In an endeavor to address the mentioned implementation challenges a novel collaborative multidisciplinary design optimization CMDO framework is defined in order to be applied in the conceptual design phase CMDO provides a platform where many engineers team up to increase the likelihood of more accurate decisions being taken early on The structured way to define the engineering responsibilities and tasks involved in MDO helps to facilitate the implementation process It will be further elaborated that educating active engineers with MDO knowledge is an expensive and time consuming process for industries Therefore a guideline for CMDO implementation in

conceptual design is proposed in this thesis that can be easily followed by design engineers with limited prior knowledge in MDO The performance of the framework is evaluated in a number of case studies including applications such as aircraft design and the design of a tidal water power plant and by engineers in industry and student groups in academia
