Local Architecture Building Place Craft And Community:

Local Architecture Brian Mackay-Lyons, 2014-12-16 In architecture as in food local is an idea whose time has come Of course the idea of an architecture that responds to site draws on local building traditions materials and crafts and strives to create a sense of community is not recent Yet the way it has evolved in the past few years in the hands of some of the world's most accomplished architects is indeed defining a new movement From the rammed earth houses of Rick Joy and Pacific Northwest timber houses of Tom Kundig to the community built structures of Rural Studio and Francis K r designers everywhere are championing an architecture that exists from in and for a specific place The stunning projects presented here in the first book to examine this global shift were featured at the thirteenth and final Ghost conference held in 2011 organized by Nova Scotia architect educator and local practitioner Brian MacKay Lyons The result is the most complete collection of contemporary regionalist architecture available with essays by early proponents of the movement including Kenneth Frampton Juhani Pallasmaa and Pritzker Prize winning architect Glenn Murcutt *Design/Build with Jersey Devil* Charlie Hailey, 2016-07-19 Steve Badanes Jim Adamson and John Ringel believe an architect's job does not stop at designing a building but that it extends to constructing it as well Now working into their fifth decade Jersey Devil the loose knit group they founded in 1972 bands together under this design build ethos that an architect's place is just as much on the job site as it is at the drawing board The trio pioneered design build practice and their influence has spawned more than one hundred design build programs Jersey Devil's process and expertise are unpacked in this Architecture Brief providing students and teachers with a toolkit for design build education Through stories didactic commentary and sample exercises the Design Build complements nuts and bolts content with Jersey Devil's philosophy and perspective allowing the book to impart practical instruction while acting as a valuable guide for navigating the elusive challenges of design build Themes touch on socially responsible architecture intuition and intentionality detailing and fostering craftsmanship group work and collaboration off the shelf components and nonstandard applications educational reform ethos and risk good life and play the politics of building and university community relations [The Handbook of Contemporary Indigenous Architecture](#) Elizabeth Grant, Kelly Greenop, Albert L.
