

## HP LaserJet 4345 MFP Swing Plate Removal

### It Can't Hide From Us

As the popularity of the LaserJet 4345 Multifunction Printers has increased, so have the number of questions on how to remove that tricky Swing Plate Assembly. In the September 2010, Vol. 17 No. 9 issue of ENOC we talked about the purpose and replacement reasons for the HP LaserJet 4300/4300 swing-plate assembly. The HP LaserJet 4345 MFP uses the same engine as the HP LJ 4300 so you would think it would be the same or at least similar. Well, not exactly. The LJ 4345 is a multifunction printer (mfp), which means there are a lot more steps to remove in order to access the swing plate. Ultimately you will have to remove the printer's power supply, just like in the 4300/4300, but getting to that power supply is what makes this such a long procedure. The following steps will help you locate the swing plate assembly, which by the way, is not in the service manual. Let us begin.

1. Turn the mfp off. Disconnect the power cord and all data and fax cables.
2. Open the top of the printer and remove the toner cartridge.
3. Remove tray 2.

4. Move to the left side of the printer and remove the output tray by lifting slightly and pulling out. (Figure 1)

5. Under the output tray, remove the duplex by pulling it straight out.
6. Remove the fuser exit guide by slipping your index finger in along the left side and bending in and pulling out. (Figure 2)

7. Remove the fuser by squeezing the blue clips and pulling straight out. (Figure 3)

8. Remove the rear left door by sliding it to the left to expose the formatter cage. (Figure 4)

9. Remove the formatter by removing the thumb screws and pulling out to the left. (Figure 5)

10. Remove rear right panel by removing one screw and prying at the 3 pry points (arrows on panel) then lift out. (Figure 6)

11. Remove the right rear panel behind tray 1 door as follows:

- 11 a. Separate tray one from outer door. (Figure 7)

- 11 b. Remove door by sliding toward the rear or right. (Figure 8)

- 11 c. Open tray 2 access door (Figure 9) and remove 6 screws and 2 clips and remove panel (Figure 10).
