Raptor Management Techniques Manual Beth A. Giron Pendleton, 1987 *Enhancing Raptor Populations* Carl D. Marti, Peregrine Fund (U.S.), 2002 **Raptor Rehabilitation** Mathias Engelmann, Pat Marcum, 1993 *Birds of Prey Wildlife Reintroduction* **Raptor Research and Management Techniques** Keith L. Bildstein, David Michael Bird, 2007

Think about how we know about past events in human history e.g. the expansion of the Roman Empire or the American Revolution. What types of records document those events? Now think about Earth's history specifically the past environmental or climatic conditions at times before recorded human history. What records might there be of such conditions? Make a list of your ideas.

an assemblage of five major types of natural archives of Earth's environmental and climatic history. What common features do each of these paleoclimate archives share? an assemblage of 5 major types of natural records or archives of Earth's environmental and climatic history. Just like a diary or other historical document the layers in these natural archives contain indirect evidence i.e. proxies about past conditions and events recorded in a sequential order. The evidence is specific to a certain time period and may be general or very detailed depending on the rate that information was recorded. The faster the rate at which the recorder grew trees and corals accumulated snow and ice or was deposited sedimentary sequences the more detailed the record is and the higher its resolution. For example a record in which an annual signal can be observed has a very high resolution. In contrast if the finest observable details are on the order of a million years then that record would have a low resolution.
