Parallel Computation A. E. Fincham,Brian J. Ford,1993 This book came from a conference which surveyed the most recent research on numerical methods and the development of algorithms for use with parallel computers It is now widely accepted that parallel computing is the future the only way to achieve the processing speeds that are required to meet the needs of computer users in the future the software problems involved require the development of new solution algorithms which are capable of supporting many parallels The emphasis of the conference was on the applications of parallel processing on the implementation of specific applications on parallel computers or with the development of efficient mathematical algorithms to be used in applications The contributors include Mike Brady et al Oxford and Jeremy du Croz NAG UK
