Self-directed entrepreneurial learning Adri du Toit , Sukie van Zyl , Aubrey Golightly , 2026-02-26 The rapid pace of global change challenges education at all levels to prepare 21st century learners for a volatile uncertain complex and ambiguous VUCA world Self directed entrepreneurial learning examines how self directed learning SDL and entrepreneurial learning EL can be integrated across various educational contexts to support lifelong learning teacher preparation and student adaptability Beginning with problem based entrepreneurial learning PBEL this scholarly book explores strategies for fostering self directed entrepreneurial learning SDEL The authors present empirical studies that illustrate SDL and EL integration across subjects such as Technology Computer Applications Technology Economic and Management Sciences Coding and Robotics Life Orientation Life Skills and the arts Furthermore the authors investigate approaches such as cooperative learning productive failure and arts based project based learning that offer practical ways to develop these competencies in pre service and in service teachers While the studies have been conducted in South Africa the insights and frameworks brought forward are broadly applicable across the African continent and the Global South This scholarly volume offers actionable strategies for academics to design implement and evaluate SDEL promoting autonomy entrepreneurial thinking and socially impactful learning in a rapidly changing world Iowa Orientation University of Iowa, 2006

International Educational Innovation and Public Sector Entrepreneurship Alexander W. Wiseman, 2014-01-10 This volume in the International Perspectives on Education and Society Series focuses on the ways that social entrepreneurs innovatively contribute to the development and implementation of education worldwide Critical Racial Consciousness Among Diverse Youth: Global Perspectives and Educational Possibilities Tina M. Durand , Siphon Dlamini, 2026-02-11 Interdisciplinary scholarship on the salience of race and racism attests to the changeable yet pervasive underpinnings of hegemonic whiteness white supremacy and colonialism on global systems of oppression Christian 2019 Although the markers of racism vary across time and place an understanding of the dynamics of systemic oppression and racialized social systems Bonilla Silva 2021 is necessary for concomitant resistance advocacy and social change initiatives across international contexts This begs the important question of how educational institutions support such processes in its citizenry especially among young people Applied scientific and neurological evidence attests to the developmental significance of the adolescent and early adulthood periods characterized by contextually relevant gains in cognitive social and affective competencies Brazilian educator Paulo Freire cast young people as uniquely positioned to enact the kind of radical hope and courage that are necessary to achieve a more equitable and racially just world More specifically youth develop critical consciousness or conscientiza o by becoming co investigators in dialogue with mentors and each other through what Freire 1970 1993 called a problem posing pedagogy In this dynamic process students as they are increasingly posed with problems relating to themselves in the world and with the world will feel increasingly challenged and obliged to respond to that challenge Freire 1970 1993 p 62 As it relates to

global racial inequity scholars have identified critical racial consciousness as a domain specific dimension of critical consciousness defined as one's beliefs, perceptions, emotional valence and activism associated with race (Baales et al 2023). Indeed, youth's ability to interrogate their lived experiences with racialized systems of dominance and inequality are tantamount to their sense of agency and civic engagement in their socio-political worlds (Dyrness 2023). Yet strategies to support, affirm and inspire youth in this process are less well understood in global context. In this research topic, we seek to provide interdisciplinary and global insights on the exciting potential of young people to be agents of change in the struggle for racial justice, with a particular focus on the construct of critical racial consciousness. We invite empirical, theoretical and applied investigations using varied methodological approaches that examine questions such as the following: What does critical racial consciousness and racial advocacy among racial/ethnically diverse adolescents and young adults look like in different global contexts? What geographic and contextual factors influence their respective emergence and manifestation? What roles do educational institutions, teachers and mentors play in nurturing critical racial advocacy among youth? Topics might address but are not limited to the following themes within racial/ethnically diverse youth populations: Racial Consciousness among Youth, Youth Critical Consciousness Development, Youth Anti-Racism Action, Experiences with Racial Stereotype Prejudice and Discrimination Among Youth, Perceptions of Racial Messaging Among Youth, Ethnic Racial Identity and Ethnic Racial Attitudes and Awareness, Youth Participatory Action Research (YPAR) in School or Community Contexts, Teacher Critical Multicultural Pedagogy, Anti-racist Curriculum or Curricular Practices, Research Practice Partnerships (RPP) Around Race and Social Justice, Global Youth Community Projects, Intersection of Youth Climate Change Activism and Racial Consciousness.
