## **Good Argumentative Research Paper Topics:**

**Writing a Successful Research Paper** Stanley Chodorow, 2011-12-01 This brief practical guide offers a clear and comprehensive strategy for conceptualizing approaching and executing the task of writing a research paper in the humanities and social sciences In addition it provides a critical and process oriented approach to the tasks of topic selection formulation of the research question thesis development and argumentation judiciously selected examples drawn from a broad range of disciplines concise treatment of the aims methods and conventions of scholarly research including the opportunities and pitfalls of Internet use a wealth of conceptual and organizational tools and more **Chodorow: Writing a Successful Research Paper, and, Harvey: Writing with Sources, (2nd Edition)** Stanley Chodorow, Gordon Harvey, 2012-10-01 Now available together as a set for a discounted price Writing A Successful Research Paper A Simple Approach by Stanley Chodorow with Writing with Sources Second Edition A Guide for Students by Gordon Harvey Writing a Successful Research Paper is a brief practical guide that offers a clear and comprehensive strategy for conceptualizing approaching and executing the task of writing a research paper in the humanities and social sciences In addition it provides a critical and process oriented approach to the tasks of topic selection formulation of the research question thesis development and argumentation judiciously selected examples drawn from a broad range of disciplines concise treatment of the aims methods and conventions of scholarly research including the opportunities and pitfalls of Internet use a wealth of conceptual and organizational tools and more Writing with Sources was developed for Harvard University s Expository Writing Program Writing with Sources describes the main principles and methods of integrating and citing sources in scholarly work and provides cogent guidance on avoiding the misuse of sources The second edition of Writing with Sources is updated throughout and includes new material on the roles sources play in argument on assessing the reliability of sources and on attitudes about writing that can lead to plagiarism **Elements of Argument** Annette T. Rottenberg, Donna Haisty Winchell, 2011-08-03 Elements of Argument combines a thorough argument text on critical thinking reading writing and research with an extensive reader on both current and timeless controversial issues It presents everything students need to analyze research and write arguments Elements of Argument covers Toulmin Aristotelian and Rogerian models of argument and has been thoroughly updated with current selections students will want to read It now includes additional support for academic writing making it a truly flexible classroom resource An electronic edition is available at half the price of the print book Read the preface **The Structure of Argument** Annette T. Rottenberg, Donna Haisty Winchell, 2011-08-03 The Structure of Argument covers critical thinking reading writing and research It is concise but thorough and presents everything students need in an affordable compact format The Structure of Argument includes questions exercises and writing assignments and a full semester s worth of readings Now presenting Aristotelian and Rogerian as well as Toulmin argument it includes many fresh readings and additional support for academic writing to help students stake their claim Its

emphasis on Toulmin argument makes Structure highly teachable since the approach fits with the goals of the composition course An electronic edition is available at half the price of the print book

**Why Good Argument is Critical to Useful Research** Mike Metcalfe, 2007 Writers like Rorty Popper Dewey and Feyerabend suggest that rather than searching for more and more exacting and rigorous rules for how to undertake well justified research we need to be concerned with communities of doubters These if adequately applying dialectic argument will act to challenge unjustified knowledge claims and so save us all from being deceived This book encourages doubt by providing over a dozen ways to critique research especially where that research results in knowledge claims about human activities Each chapter provides another pragmatic conception of knowledge used to question the assumptions behind whatever research work you have just read Therefore the book offers a way of learning about your own discipline specific research literature while also learning how to design a well justified research report

*Reading Empirical Research Studies* John R. Hayes, Richard E. Young, Michele L. Matchett, Maggie McCaffrey, Cynthia Cochran, 2020-10-07 For the most part those who teach writing and administer writing programs do not conduct research on writing Perhaps more significantly they do not often read the research done by others because effective reading of articles on empirical research requires special knowledge and abilities By and large those responsible for maintaining and improving writing instruction cannot without further training access work that could help them carry out their responsibilities more effectively This book is designed as a text in graduate programs that offer instruction in rhetoric and composition Its primary educational purposes are to provide models and critical methods designed to improve the reading of scientific discourse to provide models of effective research designs and projects appropriate to those learning to do empirical research in rhetoric Aiming to cultivate new attitudes toward empirical research this volume encourages an appreciation of the rhetorical tradition that informs the production and critical reading of empirical studies The book should also reinforce a slowly growing realization in English studies that empirical methods are not inherently alien to the humanities rather that methods extend the power of humanist researchers trying to solve the problems of their discipline
